## Little Rock Delays Opening Of High School

Board Sets Sept. 15 As Date, Awaits Meet Of Supreme Court

By THE ASSOCIATED PRESS  
Postponement of the opening of Central High School in Little Rock, Ark., until Sept. 15 eased tension in that center of the integration struggle as new tests loomed in Virginia and Mississippi today.

The Little Rock School Board voted 5-1 for the delay Monday night in a show of good faith with the U. S. Supreme Court.

Whether Negroes would be admitted Sept. 15 apparently depended on what the court decides after hearing oral arguments on the Little Rock case Sept. 11.

On the other hand, Gov. Orval E. Faubus has said he would close the 2,000-pupil school "if necessary for the peace of the community" should the court order integration resumed.

Faubus said today that he had information that U. S. marshals are being mustered for possible use in the Little Rock school integration crisis. He said he would resist any federal use of force.

"Even now in Little Rock there are U. S. marshals and other federal officers ready to take over at Central High School if integration is ordered again," Faubus said.

The governor declared he would resist "any federal force interfering with any public school in my state" and he included troops as well as marshals. Asked how he could resist federal force, Faubus replied: "By closing schools."

In Alexandria, Va., the legality of the amended version of Virginia's Pupil Placement Act may be tested in federal court during a hearing on a motion to order Arlington County to admit 30 Negro pupils into its white schools.

At Gulfport, Miss., Negro minister Crennon King planned to enroll his 6-year-old daughter in all-white North Central School.

In an apparently related incident, a black-faced effigy was found hanging from a flagpole on the federal building in downtown Gulfport. It was removed immediately.

At Raleigh, N.C., litigation over racial mixing in the public schools flared briefly.

Federal Dist. Judge Edwin M. Stanley refused to grant a court order for admission of Joseph Hiram Holt Jr., a 15-year-old Negro, to all-white Needham Broughton High School.

The judge said Holt and his parents had appealed to the courts before they had exhausted the administrative remedies provided them by North Carolina's pupil assignment law.

In Charlotte, N.C., racial agitator John Kasper was greeted with heckling and laughter when he appealed for recruits for his Citizens Council during a segregation speech on the courthouse steps.

In Oklahoma City, young Negro demonstrators called off their "sitdown" for food service in downtown department stores so they could go back to school.

The New York Board of Education's Commission on Integration issued a report in which it said there can be no such thing as "separate but equal" schools.

"Whether school segregation is the effect of law and custom, as it is in the South, or has its roots in residential segregation, as in New York City, its defects are inherent and incurable," the report said.

The commission recommended that areas where one racial group dominates be rezoned so students may attend integrated schools.

## Tennessee School Is Still Integrated

CLINTON, Tenn. (AP)—Clinton High School begins its third year of racially mixed classes today with 10 Negroes, all girls, enrolled among about 800 whites.

Four of the Negroes were in the school last year and six freshmen registered last week.

Two years ago Clinton High first admitted Negro students under federal court orders amid violent demonstrations that brought National Guardsmen to restore order.

## Ohio's Holiday Traffic Toll One Of Worst in U.S.

By THE ASSOCIATED PRESS  
Millions of Ohioans bid goodbye to summer this weekend — and for 33 persons it was a last farewell.

Ohio wound up the long Labor Day weekend with one of the worst accident tolls in the nation. Between 6 p.m. Friday and midnight Monday, the Associated Press counted 23 persons killed in highway accidents, three drownings, and seven dead in other types of accidents.

On the nationwide scene, the toll stood at 409 deaths in traffic plus 112 drownings and 86 miscellaneous deaths for a total of 607.

The worst single accident in

## London Race Riots Continue

57 Persons Arrested In Weekend Battles

LONDON (AP) — Race rioters rampaged through London's Notting Hill district Monday night for the third successive night.

It was early morning before police with big Alsatian dogs cleared the streets of the mob of more than 2,000 whites, most of them teenagers.

The rioters systematically smashed windows of Negro homes. The embattled residents retaliated by hurling bottles from their roofs. One homemade gasoline bomb also was thrown down, but the fire was put out quickly.

One white man was stabbed in the shoulder. Scores of other persons had minor injuries.

Police arrested 34 persons, bringing to 57 the total arrested in London since racial disturbances broke out again Saturday night.

In the neighboring Paddington district, gangs of white youths wrecked a cafe frequented by Negroes.

Britain's racial friction stems from competition — for housing, jobs and girls — between native-born poor whites and the swelling tide of colored immigrants from the West Indies and other areas of the Commonwealth.

Nottingham also had weekend race violence. There a mob of 1,000 whites moved on the city's colored quarter Sunday night but police patrols drove them off. Five of the rioters were sentenced to three months in prison and 19 were fined.

Home Secretary Richard A. Butler was reported satisfied that the police could handle the situation. But he ordered a special report on the riots.

A social worker in Notting Hill said the rampaging teenagers "are just looking for excitement."

## Ohio Sales Tax On O'Neill's Picnics Asked

COLUMBUS, Ohio (AP)—Merrell D. Brothers, Democratic nominee for Ohio Supreme Court judge, today requested collection of \$6,000 in sales tax on O'Neill campaign picnic dinners.

A letter to Atty. Gen. William Saxbe said the sales tax was due on tickets to 11 campaign picnics staged by a committee sponsoring re-election of C. William O'Neill, GOP incumbent governor.

Letters also went to prosecutors of Franklin and Tuscarawas counties where two of the picnics were held.

Either the committee owes sales tax on the tickets or was guilty of violating the Corrupt Practices Act, Brothers asserted.

"If the tickets to the picnics were in fact purchases for the dinners at \$2 each . . . then it would appear the state of Ohio may be entitled to 6 cents for each one sold, or a total of \$6,000, using attendance figures given by the committee," Brothers said.

"On the other hand, if the tickets were not sold, but were given away, then there appears to have been a violation of the Corrupt Practices Act which prohibits a candidate or committee from giving away anything of value to voters."

Brothers explained that the attorney general was asked to take action to collect the sales tax and that prosecutors were asked to call on grand juries to investigate possible violation of the Corrupt Practices Act.

Ohio occurred early Saturday when three men died in a head-on collision near Dayton.

The only other multiple auto fatality also happened Saturday when two persons were killed in an auto-train collision at a Sandusky intersection.

Four traffic accidents involved pedestrians. They included a 30-year-old Cleveland struck down by a hit-skip motorist.

A sharp rise in deaths on the highways in the closing hours of the 78-hour holiday period shot the total close to the prediction made last week by the National Safety Council.

An estimated 30 million cars were on the highways Monday, the windup of summer's last long holiday.

The final count may surpass the estimate. But it did not appear likely it would reach the 1957 Labor Day holiday total of 445 or the record high toll for a Labor Day period of 461 in 1951.

However, the over-all accident death total may equal the count of 636 for last year's three-day Labor Day period, but below the record high for the holiday of 659 in 1951.

In the country's three major summer holiday periods—Memorial Day, Independence Day and Labor Day—more than 1,140 persons were killed in motor vehicle accidents. All the holidays extended over a period of 78 hours. The Labor Day count was from 6 p.m. (local time) last Friday to midnight Monday. The traffic toll for the Fourth of July holiday was 370; for the Memorial Day period it was 371.

An Associated Press survey, made for comparative purposes, showed 300 traffic fatalities in a 78-hour nonholiday weekend period Aug. 15-18. Drownings totaled 78 and miscellaneous types of accidents, including fires and plane crashes, were 94.

## 104,189,678 In U.S. Now Go to Church

NEW YORK (AP)—The National Council of Churches says reported religious affiliation in the United States was at a new high of 104,189,678 last year, but the ratio to population dropped slightly from 1956.

The statistics indicate a net gain of 964,724 church and synagogue members for 1957.

The 1957 total was 61 per cent of the nation's estimated 170,400,000 population.

The increase of 0.9 did not keep pace with the population rise, estimated at 1.7 per cent.

The new figures are included in the annual statistical report of the National Council of Churches, leading Protestant and Eastern Orthodox group in the country, released Monday.

Benson Y. Landis, editor of the Yearbook of American Churches, stressed that the figures were reported by religious groups.

The statistics covered 255 denominations in 48 states and the District of Columbia.

The major denominations for 1957 were listed as: Protestant 59,823,777; Roman Catholic 35,846,477; Jewish 5,500,000; and Eastern Orthodox 2,540,446.

A total of 478,978 persons were listed as affiliated with other groups.

## Russian Course Slated in Newark

NEWARK, Ohio (AP) — When juniors and seniors at Newark High School return to classes Wednesday, they will have an opportunity shared by few Ohio students. They will be offered a course in Russian.

The course will be taught by Frank Spencer Jr., son of the publisher of the Newark Advocate. He is a former U. S. Army interpreter in Berlin and majored in the language at Columbia University.

Superintendent Thomas B. Southard said he believes the only other high school Russian course in Ohio is offered at Hamilton High School. The Newark course is described as intended to lay the basis for further college training.

## New Premier Elected

CAPE TOWN, South Africa (AP)—Hendrik Verwoerd, chief architect of South Africa's policy of white supremacy, became the nation's prime minister today, succeeding Johannes G. Strijdom who died Aug. 24.

## U.S. Prepares New Plan for Outer Space

CHICAGO (AP) — The United States will propose in the United Nations in a few weeks a program for international cooperation in the field of outer space.

Henry Cabot Lodge, U. S. representative in the U. N., announced today that the program will be presented at the next regular session of the General Assembly.

Without going into any details of the U. S. plan, Lodge said in an address prepared for the annual national convention of the American Legion:

"No matter what happens, study and exploration of outer space will go on and will take man where no human being has gone before. This will affect every man, woman and child in the world—and can be to their great benefit."

Lodge added that the United States will continue efforts to reach agreements, consistent with national security, in an effort to increase prospects that outer space will not be used for military purposes. He added:

"But even as we work for such agreements, an important start must be made now in opening this new realm for the benefit of all mankind."

"The United Nations, therefore, should immediately consider what it can do in this field; what outer space projects for peaceful purposes can be undertaken under United Nations auspices; and what sort of organization the United Nations can build so that the nations will work together in outer space."

"Some practical program for international cooperation in the scientific and peaceful study and exploration of outer space must be set up."

Lodge also predicted that a new attempt will be made again in the next few weeks to admit Communist China to the U. N.

He said the United States, which has blocked such moves on more than 30 previous occasions, "will undoubtedly deal with it successfully."

The convention, after a week-end of parading and merrymaking. (Continued on Page Two)

## Hurricane Rips Through Cuba

MIAMI, Fla. (AP) — Hurricane Ella whistled up the center of Cuba today, about 350 miles south-southeast of Miami. Winds of 60 miles an hour were forecast for the Florida Straits.

Flash flooding was expected in central and western Cuba as Ella extended its gale force winds outward 150 miles to the north and 50 miles to the south.

Gale warnings were in effect from Palm Beach, and Fort Myers, Fla., southward to the Florida Keys and Florida Straits.

Reports from Cuba indicated Ella broke up some while passing through the mountainous sections of eastern Cuba.

## Lawyer Launches New Try To Free Dr. Sam from Pen

COLUMBUS, Ohio (AP)—An attorney for convicted wife slayer Dr. Samuel Sheppard told the Ohio Supreme Court today he is prepared to go through all the federal courts to free his client from Ohio Penitentiary.

William J. Corrigan of Cleveland told Chief Justice Carl V. Weygant, sitting alone in a habeas corpus hearing:

"If I do not get relief here, I intend to pursue this matter through the federal courts to see if I can't change the policy that a circus trial is all right in Ohio."

"I am not presumptuous enough to presume that this court is going to overturn the opinion it already has written in this case."

Judge Weygant, after a one-hour hearing, assured attorneys for both sides that he hopes to announce this week his decision on whether to issue an alternative writ of habeas corpus.

BRITAIN-ICELAND "FISH WAR" — British trawler Lord Plender (left) is escorted into the harbor at Reykjavik, Iceland by the Icelandic fisheries protection ship Thor, after the English ship allegedly violated Iceland's four-mile limit. Meanwhile a show-down force of British trawlers is operating within Iceland's proposed 12-mile limit, setting up the possibility of an Anglo-Icelandic "fish war."

## 11 Red Boats Claimed Sunk

Nationalists Say Quemoy Convoy Lost

TAIPEI, Formosa (AP) — The Chinese Nationalists claimed their warships early today sank 11 Communist torpedo boats and probably a 12th trying to break up a convoy to embattle Quemoy Island.

It was the biggest naval action reported in the 11 days since the Communists stepped up their attack on the Nationalist-held offshore islands.

Earlier, the Nationalists announced their artillery on Quemoy in firing throughout Sunday night sank three Communist gunboats and eight motorized junks in a flotilla near Amoy, the Communist island port blockaded by the Nationalist islands.

Despite the naval success claimed by the Nationalists, the torpedo boat attack forced the troop carrier to return to the Pescadores Islands without unloading 370 troops destined for Quemoy. Only 30 of the reinforcements made it ashore.

While the naval engagement raged, Red shore batteries pounded Quemoy with renewed fury. The Communists fired 857 shells in an hour and a half and also dumped a 101-shell barrage on tiny Taitan islet 2 1/2 miles south of Amoy.

The combined artillery and sea attack erupted after the quietest day in the Formosa Strait since the Reds began their heavy attack Aug. 23. The Communist shore guns fired only 457 shells Monday.

The Nationalist Defense Ministry said the Communists had fired about 125,000 shells at the islands in the first 10 days. To evacuate casualties and keep the islands' troop and supply strength up in the face of an invasion threat, the Nationalists have been running night convoys to Quemoy from the Pescadores Islands, 30 miles west of Formosa.

Bataan General Dies  
BRUNSWICK, Ga. (AP) — Funeral services will be held today for Maj. Gen. Edward P. King, who commanded U. S. forces on Bataan in the Philippines at the time of the 1942 surrender to the Japanese. He was 75.

## Khrush Tells U.S. Tycoon Soviet Seeks Arms Race End

MOSCOW (AP) — Cleveland industrialist Cyrus Eaton said after a long talk with Premier Khrushchev Monday that the Premier feels the arms race is an expensive operation that the Soviet Union wants to end.

Eaton, here as guest of the Soviet Ministry of Agriculture, said he discussed disarmament with Khrushchev in a 95-minute meeting in the Kremlin. The two met shortly after Khrushchev returned from a vacation at a Black Sea resort.

Eaton said Khrushchev told him that the Soviet Union wanted to be relieved of the expense involved in developing new weapons.

Eaton said the Soviet Premier told him that he felt the U. S. State Department was antagonistic toward the Soviet Union, but added that he would like to visit the United States.

Khrushchev expressed concern,

Eaton said, over foreign journalists who return to the West after short visits to the Soviet Union and report that the Russian people are friendly but that the Soviet government is antagonistic.

Eaton said Khrushchev told him he knows the American people want peace but he is not so sure about the U. S. government.

Eaton replied that American industrialists — favorite targets of Soviet propaganda — do not want war. He said he told the Soviet Premier that industrialists do not want to pay higher taxes which would go for weapons.

Eaton was quoted at length by the Soviet press and radio today as criticizing American policies in the Middle and Far East. No broadcast interview quoted Eaton as saying anything favorable about the United States or critical about the Soviet Union. Eaton told Western correspondents he might say something about the broadcasts and stories later.

The Soviet press printed only a brief official account of his meeting with Khrushchev.

(The portions of the dispatch quoting Eaton directly on his interview with Khrushchev were held up by the censor in Moscow for several hours.)

## U.S. Sets Up New Aerial Traffic Plan

WASHINGTON (AP) — A large-scale merger of civilian and military long-range radar equipment to scan the skyways was announced by the government today.

Joint use of the electronic eyes for civil air traffic control and for air defense is expected to save many millions of dollars and allow smoother performance of both types of operations.

Civil Aeronautics Administrator James T. Pyle and Lt. Gen. J. H. Atkinson, chief of the Air Defense Command, announced the program scheduled to go into effect some time this fall.

Initial plans call for joint use of 31 high-power radar facilities with aircraft spotting capability reported at 135 to 200 miles. More radar sets are planned for the joint service later.

The CAA intends to employ the radar for its air traffic control tasks. The Air Force, Army and National Guard will use it for air defense. The heavy radar equipment stretches across the country from Seattle to Miami.

Besides allowing lower equipment and operating costs, the joint use cuts down on radar interference and coordination problems.

The CAA estimated that of the 100 radar sets planned for the air traffic control system more than half will be for joint use by the military.

French Clamp Down On Algerians in Paris

PARIS (AP) — The government intensified its campaign against Algerian terrorism in France today, warning North Africans to stay off the streets between 9:30 p. m. and 5:30 a. m.

Police reported in the past week they have killed three North Africans identified as terrorists.

Algerian nationalists started a new wave of terrorism in France eight days ago to support the 4-year-old rebellion in Algeria.

## English Frigate Holds Captives In New Flareup

REYKJAVIK, Iceland (AP) — British fishermen and Icelandic coast guardsmen battled hand-to-hand aboard a British trawler in the no-fishing zone off Iceland's east coast today, the Iceland coast guard reported.

An official statement, broadcast by the government-owned radio, gave the Icelandic people a graphic account of the fight.

It said a rough battle ensued when an Iceland gunboat's crew attempted to seize the British trawler Northern Foam. The British frigate Eastbourne steamed to the trawler's side and took the Icelanders off, the radio said.

All this happened off the eastern tip of Iceland. It is the first reported violent contact in the nearly two-day-old fishing dispute between Iceland and Britain.

While the struggle at sea was going on, the trawler Northern Foam drifted in about four miles from the Icelandic coast, the radio said.

The British Embassy here said the Eastbourne was awaiting specific instructions what to do with the captured Icelandic coast-guardmen.

In the confusion at sea, the coast guard said, the British navy tried to return its captives "but the coast guard commander refused to take them back." The coast guard said the Eastbourne then steamed away.

Britain has refused to recognize Iceland's extension of its territorial waters to 12 miles off the coast. The new limit, which sets up a can on foreign fishermen inside the 12-mile line, took effect at midnight Sunday. The British trawler fleet immediately challenged the ban by moving to their traditional fishing grounds in the prohibited waters.

There was no shooting on the first day of Britain's defiance of the new limit, although the British managed to foil a boarding attempt yesterday by some fast maneuvering.

Foreign Minister Gudmundur Gudmundsson said Iceland had protested to London the "use of force by the British navy" to prevent an Icelandic gunboat from arresting a British trawler.

In a broadcast to his north Atlantic island nation Monday night, Gudmundsson said he had ordered Iceland's ambassador in Paris to report the incident to NATO Secretary General Paul-Henri Spaak.

Private talks arranged by Spaak broke down in Paris last Friday after Iceland rejected a proposal to share foreigners' catch and extend its territorial waters only six miles to seaward. British Prime Minister Macmillan offered Sunday to resume these talks but

(Continued on Page Two)

## 3 Gls Killed In Collision Near Sandusky

SANDUSKY, Ohio (AP)—Three soldiers who had been taking part in the National Rifle Matches at Camp Perry were killed early today in a traffic accident near here.

A fourth soldier and a high school teacher are in critical condition from injuries received in the crash on Ohio 2 four miles west of Sandusky.

The State Highway Patrol identified the dead as Pvt. Ronald M. Coolong, 19, of Hohokus, N.J.; Pvt. Linwood M. Andrews, 21, and Pfc. Robert A. Lensky, 23.

In critical condition at Providence Hospital are Pvt. Frank T. Scarpinato, 22, of Chicago, and Wilbur R. Mayer, 24, of Somerset, Pa.

Mayer was to have started today as business instructor at the new Perkins High School in Erie County.

Scarpinato, Coolong and Andrews were on temporary assignment to Camp Perry from Ft. Riley, Kan., and Lensky was on assignment from Ft. Sill, Okla.

Patrolman John Milstead said the car in which the four soldiers were riding apparently went out of control at a curve on Ohio 2, left the highway and came back on again, colliding with the car in which Mayer was driving alone.

## Seven Minor Accidents Mar Holiday

Roscoe Frazier, 27, Stoutsville, was treated for lacerations of the fingers of the left hand at 12:25 a. m. Saturday at Berger Hospital.

Vicki Large, 10-year-old daughter of Mr. and Mrs. Carl Large, Route 2, Williamsport, fell on an unknown object cutting her left leg while playing at home at 6:30 p. m. Saturday. She was treated at Berger Hospital and released.

Danny Stone, 20, Route 1, Amanda, cut the palm and middle finger of his left hand when he pushed it through a glass window at home at 2:45 p. m. Sunday. He was treated for lacerations at Berger Hospital and released.

Joseph Susi, 42, Route 4, suffered a possible fractured right shoulder when pushed against a door frame and fell hitting the floor at 3:45 p. m. Sunday. He was treated at Berger Hospital and released.

Tim Sines, 3-year-old son of Mr. and Mrs. Leo Sines, 551 N. Pickaway St., fell at home hitting a kitchen chair cutting his forehead at 9:35 p. m. Sunday. He was treated for a laceration at Berger Hospital and released.

John Wardell, 24, Route 1, Clarkburg, suffered a possible sprained right knee when he fell while water skiing at Lake White Monday. He was treated at Berger Hospital and released.

Grace Swift, 76, of 480 Dearborn Ave., was treated for a laceration on lower leg due to a fall at Berger Hospital at 7:30 p. m. yesterday and released.

### Scioto Grange To Meet

Scioto Grange No. 2456 will meet at 6:30 p. m. Thursday for a picnic supper at Scioto School. Each family is to bring their own table service and a quart of strong sweetened tea. A business meeting will follow at 8:30 p. m.

# Many Counties Battle Problem Of Poor Relief

COLUMBUS, Ohio (AP) — No matter how smoothly the wheels of business and industry turn, there's always some friction.

Perhaps not so much when things are booming and Ohio is on its way toward becoming the No. 1 state industrially.

But the friction shows up dramatically when the wheels slow down and workers lose their jobs. Some are forced to go on relief to join the hard core of 55,000 Ohioans who are incapable of holding jobs, for one reason or another.

That has happened in Ohio because of the recession and has raised this question: Is Ohio's welfare program adequately financed?

Richard C. Minor, assistant state welfare director, asked the question against the background of the financial plight of the Franklin County Welfare Department.

Because of lack of funds the department is cutting persons off poor relief on a selective basis, trying to remove those who need relief the least. But there are about as many new relief cases as welfare Director Richard K. Cassidy is able to remove from the rolls.

Minor believes Ohioans should take a look at the way the state's welfare program is financed.

"Ohio is a very rich state," he says. "The people in general want to support an adequate welfare program and I feel the Legislature will agree."

Atty. Kline L. Roberts, a Republican and majority floor leader in the Ohio House of Representatives, has taken a look at the overall welfare picture. He heads a committee of nine representatives and six senators working on recommendations for changes.

"Present financing certainly is not adequate in the metropolitan areas because it places a great burden on local governments at the wrong time," he says. "Relief costs rise when revenues decline."

The committee, formed six years ago to study problems of the aged, takes in the whole welfare field. It has conducted hearings at Mansfield, Portsmouth and Lima and may meet Sept. 26 to

hear preliminary reports on financing, county homes and nursing homes.

"We have no snap judgments on what is needed," said Roberts, adding there will be specific recommendations by the end of the year. "The Franklin County situation reflects the inability of the local governments to deal with the situation."

What is the source of poor relief money?

John W. Main, head of the business administration division of the state Department of Welfare, says most of the local money comes from two levies on the gross receipts of public utilities. Some counties, notably Franklin and Cuyahoga, have local levies that supply some funds.

The rest of the money for local relief comes from the state which matches up to 50 per cent of the local agency's expenditures. This money comes from sales tax collections.

Half the receipts of one utilities tax levy is distributed on the basis of population and the remainder on the basis of relief expenditures for the preceding year.

Receipts from the other levy are given out on the basis of the average tax duplicate.

Late last year the state found it was running low on matching money and cut back. The cutbacks were restored in January and a special session of the Legislature in June provided an additional six million dollars for matching money.

Before Jan. 1 the state matched half of county expenses on an estimated basis but changed to providing the money after actual bills came in.

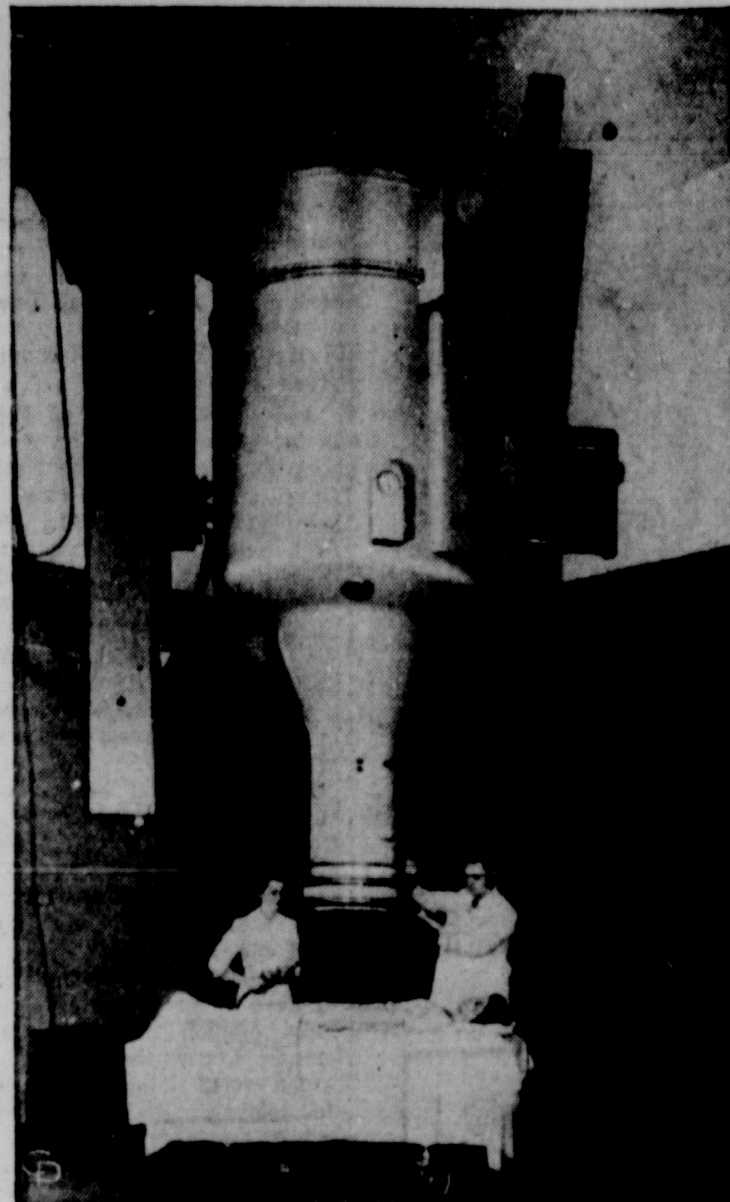

Franklin County Welfare Department began this year with a \$301,528 deficit. It should receive \$1,396,002 in utility tax receipts during the year.

## Texas Too Small Now

NOGALES, Ariz. (AP)—R. H. Bibolet, the self-styled Texas consul in Nogales is resigning.

For years Bibolet, a rancher, has cited the vastness and glories of his native state.

But now, "I don't want to repre-

**BIG IMPROVEMENT**—It's a demonstration of the new 2,000,000-volt X-ray machine, largest in Ohio, being installed in Christ hospital, Cincinnati. The \$200,000 unit will be used to treat deep tumors. Only a few are in operation in the nation.

## Sparkling Shower

NEW HAVEN, Conn. (AP)—For weeks members of the Colony Beach Club had showers that seemed to "fizz." Finally it was discovered that a valve in the club's carbonating room was defective, allowing carbon dioxide gas to escape into the water system. Now members are showering with plain old wet water.

sent anything but the largest state and I don't want to move to Alaska," he said.

Loreta J. Velazquez, posing as Lt. Harry T. Buford, was a noted woman spy on the confederate side in the War Between the States. She had to wear a special brace to make her appear masculine.

## Cincy Firemen Miss Own Fire

CINCINNATI (AP)—"The firehouse is on fire," an excited caller told the fire tower operator Monday. It was no joke.

The situation, enough to make a firefighter blush fire-engine red, was this:

Early Monday afternoon, the 10 members of Pumper Co. 32 and Ladder Co. 12 dashed out to answer an alarm that turned out to be no fire — just smoke from a fumigation job.

But when they came back, the firefighters were embarrassed to find Pumper Co. 39 dousing a fire in their kitchen.

In haste to leave, the cook had forgotten to turn off the gas under a pot of grease heating for french fried potatoes. A neighbor turned in the alarm.

## ASC Office Gives Explanation Of How Soil Bank Operates

A step-by-step description of how a farmer can put all or part of his land in the 1959 Conservation Reserve of the Soil Bank was given here today by Marvin G. Steeley, chairman of the Pickaway County Agricultural Stabilization and Conservation Committee.

He emphasized that the first and most important step is for a farmer to ask the County ASC Committee to establish maximum annual payment rates for his farm. Payment rates will not be established for a farm unless requested by the farmer.

At the same time, the farmer should furnish the committee with information on acreage and yields for his farm and give an estimate of the value of his land. This information is needed before the rates can be established. The deadline for farmers to request that rates be established for their farms is Oct. 10, 1958.

On the basis of the information supplied by the farmer and other records, the county ASC office will establish maximum annual rates of payment for the farm and will send the farmer an application form for placing land in program. The application form will show the rates established for the farm.

The farmer then decides how much cropland he wants to put in the Conservation Reserve, how long he wants his contract to run, and the rate of annual payment at which he will offer his land. He enters this information on the application form. The application must be returned to the county ASC Committee on or

before Oct. 24, 1958, the deadline for filing applications.

In connection with the filling out of this application, Steeley pointed out that a farmer may offer to put land in the Conservation Reserve at less than the maximum annual payment rate established for his farm. He stressed that this could be particularly important since priority in accepting applications will be given to farmers who make the best offers. Thus, the farmer who offers land at less than the maximum rate set for his farm will be more certain of having his application accepted.

Contracts will be offered to farmers after the deadline for returning applications to the County ASC Committee. Before a contract is concluded, someone from the county ASC office will visit the farm and examine it for eligibility and measurement of acreage.

Where only part of the cropland of a farm is offered for the Reserve, the land will be examined to determine if it is substantially as productive as the average of all cropland on the farm. Then, Steeley said, the contract is ready for the signature of the farmer and the approval of the County ASC Committee.

Any farmer can participate in the Conservation Reserve who has cropland which is regularly used for cultivated crops or tame hay.

Congress failed to appropriate funds to support West Point in 1915. Its superintendent, Maj. Joseph G. Swift, borrowed \$65,000 on his personal credit to keep the academy open.

**TESTIFIES**—Lawrence J. Camle (above), former executive officer of St. Louis Warehouse Workers Local 686, testifies before the Senate Labor Relations Committee in Washington. The group is probing charges that Teamster Vice President Harold J. Gibbons "bought control" of Warehouse Workers Union for \$75,410 in 1949.

## Wrong Turn

PONCA CITY, Okla. (AP) When Shorty Goddard returned home one evening he discovered he had a freshly poured concrete driveway.

The contractor, he said, had mistakenly put the drive at his home instead of at a neighbor's. Goddard said he had been planning to have one built anyway.

## No Cussin' in Navy Now

Traditionally a salty chap is a realistic description of the British seaman. In Her Majesty's navy he swigs his tot of grog gratis, on government issue, as a traditional right. And he has a gift for language that would curl your hair and make the blue lightnings of St. Elmo's fire crackle about the crow's nest.

This is the picture those who read about the adventures of characters like Captain Bligh and Captain Hornblower have conjured up. Whether reformers who like to change the bad old ways to something more hygienic and less colorful have altered the picture is not clear, but some of them have been trying.

A news item from Southampton discloses that men aboard Her Majesty's fast mine-layer Apollo are now paying fines for saying naughty words. The fines start at one penny—1 1-6 cents in American money—for "mild and sissy swearwords." Presumably these are words that could be printed in a family newspaper without drawing protests from readers.

The fine is doubled for "out-and-out cuss-words." It mounts to 3½ cents for "the kind that curdles milk" and reaches a peak

of sixpence (7 cents) for "the kind that kills termites." Well, now! There aren't any termites on Her Majesty's ships. And anybody who can kill termites, regardless of how, should be rewarded instead of fined.

Of course the fines are small. If cussing doesn't cost any more than that, and if the British navy bears an resemblance to that of Bligh and Hornblower, the men may decide that it's worth it.

Anyway, how would offenders be caught and punished? It is difficult to visualize an army of snoopers aboard ship, notebooks and pencils poised to take down each cuss-word and add up the total tax. The qualitative and quantitative appraisal of cusswords might boomerang, in fact, by arousing the spirit of competition.

## Courtin' Main

France still wants to irrigate the Sahara Desert but hasn't caught Uncle Sam in the proper mood to get him to put up the money.

## Timber Growth Exceeds Harvest

By Hal Boyle

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

That for the first time in this century America is growing timber faster than it is being removed from the forests.

That one in every 700 children is born with a cleft lip or palate.

That if dogs kept people they probably would never pat them on the head because most dogs don't like to be patted on the head themselves. They'd rather be scratched.

That nearly 30,000 Americans are injured in accidents every day, or about 20 a minute.

That the Kiwanis Magazine reports this sign on a mortician's office door: "Pay now, go later."

That the oldest gem known to man is the pearl.

That one way to get rid of dandelions is to keep rabbits around your house. They love dandelion roots, plus everything that grows in your garden, too.

That the crusty Duke of Wellington once closed a letter of reprimand to one of his officers as follows: "I have the honor to be, sir, your humble and obedient

servant (which you know damn well I am not), Wellington."

That if you're on a diet, sipping a little water between meals is supposed to help still your hunger pangs. This may work with you; it doesn't with me.

That it takes nature from 500 to 1,000 years to form an inch of topsoil.

That the strawberry isn't a true berry. It belongs to the same plant family as the rose.

That the first person to wear silk stockings was a man. French King Henry II introduced them to his court in 1559, and Queen Elizabeth of England started wearing them two years later.

That a full-grown ruby-throated hummingbird weighs about the same as a penny.

That the longest recorded flight by a homing pigeon was from France to China, 7,200 miles.

That Joseph Haydn, known as "the father of the symphony," had a wife who didn't appreciate music. One of her annoying habits: Cutting up his completed musical scores to make curling papers for her hair.

That Benjamin Franklin went to school for only two years but

taught himself algebra and geometry and how to read French, Italian, Latin, Spanish and German.

That American housewives spend 65 million dollars a year fighting moths.

That there's a Winchester Hotel in Rifle, Colo.

That Herbert Hoover has lived longer since leaving office than any ex-president in history. The previous longevity record of 25 years 4 months was held by John Adams.

That some 800 Indians live in New York City, largely in Brooklyn. Most are members of the Mohawk tribe and put up the steel in skyscrapers and bridges.

That the real name of British actress Diana Dors is Dora Fluck.

That actress Fran Beck Jr., says: "A small town is one in which even if you get the wrong number, you still have a conversation."

That it takes more than 250 pounds of roses to make an ounce of attar, a perfume base.

That it was Kin Hubbard who observed: "It's pretty hard to tell what does bring happiness; poverty and wealth have both failed."

## Can't Retard Bright Students

By George Sokolsky

Most parents believe that their children are more or less bright. In fact, many parents object to special schools for bright boys and girls because such schools show up their own little ones who are just average or if the truth must be told, even below that. Parents sometimes grow emotional about what they call undemocratic schools where they mark a dope F and give an A Plus to the capacious mind.

Prof. A. Harry Passow of Teachers College, Columbia University, accuses me of having done him dirt on this subject when I recently quoted him from an Associated Press dispatch. He says that I needed a foil and used him. Why him? After reading the Associated Press dispatch, I made the point that the word democracy can have nothing to do with education which is an unequal task, some children being able to take more of it than others.

It turns out that Dr. Passow is in charge of a research project intended to develop ways of identifying and educating children of exceptional talent. He has sent me a mass of literature which shows that his views, except for professional jargon, are about the same as mine, although he approaches the problem professionally as a teacher, while I observe it journalistically as one witnesses any phenomenon of the day.

The bright child requires little identification; his brightness asserts itself, as Abraham Lincoln's brightness or Thomas Edison's genius asserted itself. What the excited educators are seeking is not as much genius as it is a greater proficiency to meet the needs of this country for a larger number of trained and disciplined minds to do the work of the nation.

Prof. Passow asks in his numerous studies of the problem: "Who is to be considered gifted?" Does that question really have to be answered. If a marking system is honest and univer-

sally, the gifted will assert themselves, although it has been known to be so that a student got poor marks and became famous in the field of his early failure. Perhaps no better example of that can be Winston Churchill.

In a competitive world, quality will emerge to the top, no matter what is done to keep a man down. The struggle may be hard and even ugly but it is worth the effort when success comes.

Prof. Passow's reference to "democracy" as provided by the Associated Press is more correctly stated in a passage in an article entitled: "Are We Short-Changing the Gifted?" which appeared in the "School Executive."

"Another set of obstacles to adequate provision for the gifted results from a misinterpretation of the democratic commitment of public education. The school is the agency which fills individual specialized needs of each child while meeting the social needs of democracy. This in-

tegrating function, however, is twisted by some schools into a reason for avoiding necessary special provisions for the gifted child."

Let us stop there because I think that the phrase "while meeting the social needs of democracy" is what makes all the trouble. If we simplify the purpose of the school, we shall produce bright boys and girls and discard the dullards. A school is a place to which children are sent to learn what their parents and teachers believe that they should be taught.

As long as we insist on adding to that simple function of the school, all the complexities of social consciousness, we shall always be in our present dilemma which is whether it is not socially more valuable to teach a great many people something than to expend time and money on teaching a few brilliant minds who will invent another kind of atom bomb and read Sanskrit poetry. Prof. Passow says:

"Fortunately, Americans do not consider as undemocratic the extraordinary provisions made for exceptional children who are mentally, physically, socially or emotionally handicapped. Schools have long recognized and met the need for special programs for these students. How odd, then, that many administrators fail to see that the gifted may become handicapped unless special provisions are made for them as well."

The fact, however, is that many administrators do take that view and they do it because it is politically unsound, particularly in smaller communities, to do otherwise. Educators complicate their problems with such phrases as "well-adjusted," "well-balanced," etc. Was Mozart "well-adjusted"? Was Einstein? Who knows and who cares?

## Ohio State Building Projects Given OK

PUT-IN-BAY, Ohio (AP)—Approval of building projects, appointments and budgets were among the work covered Monday by the board of trustees of Ohio State University during their meeting.

The trustees approved contracts for a \$2,300,000 addition to McPherson chemical laboratory, announced that a U.S. Health Service grant will finance construction of a \$800,000 University Hospital research facility and approved plans for a \$740,000 addition to the service building.

## You're Telling Me!

By HOYT KING  
Central Press Writer

The secretary of Britain's film censorship board says the sex in American movies causes him more trouble than the sex in French movies. It just goes to show, a little knowledge is a dangerous thing.

In America, the show must go on. In France it comes off.

Hollywood glorifies the bathtub. In France it's the shower.

The International Congress of Genetics learned that the gene has divisions, instead of being a single unit of matter. So that's what the matter.

Prof. Tibor Helvey, a radiation scientist of Kansas university, issued a call for two men and a woman willing to live eight days in a setting similar to the moon's. The moon is unpopulated, and he wants to start with a crowd.

"One man by himself might go psycho," says Professor Helvey. It sounds almost like a requirement.

Professor Helvey thinks three people, one a woman, have the best chance of getting along together. This is the moon he's talking about.

## LAFF-A-DAY

"That was the interior decorator. He says you'll have to go!"

## Try and Stop Me

By BENNETT CERF

BACK FROM A TRIP through the wildest stretches of Utah and Arizona, a publisher whose hobby is visiting National Parks recalls one day when he suddenly was ambushed by a

passel of Indians. "They bobbed up from nowhere," explained the publisher. "Suddenly they were in front of us, behind us, to the right of us, to the left of us!"

"What did you do?" asked a friend anxiously.

"What could we do?" chuckled the publisher. "We bought some blankets."

If interested in the beginnings of the motion picture industry, there's a plaque next to the doorway of 151 West 34 Street, New York (now part of Macy's) that should intrigue you.

It reads: Here the motion picture began! On the night of April 23, 1896, on this site in Koster and Bial's Music Hall, Thomas A. Edison with the "Vitascope" first projected a moving picture. In commemoration of this event, this tablet is here affixed by the Motion Picture Industry, 1938.

## Don't Chain Smoke in Car

By Herman N. Bundesen, M.D.

All of you are well aware that it is dangerous to drive after drinking alcohol. Well, it may be dangerous to drive while smoking excessively, too.

At least that is the opinion of a British publication, "The Optician."

The blood stream, you see, absorbs carbon monoxide from incomplete combustion of tobacco 210 times faster than it takes in oxygen. Heavy smoking can produce as much as 10 per cent saturation of hemoglobin with carbon monoxide instead of oxygen.

Tests have shown that only three per cent carbon monoxide saturation can measurably impair sharpness of vision and depth perception.

All of this, "The Optician" says, seems to indicate that smoking at the wheel hampers the eyesight. And certainly good eyesight is a driving essential.

Speaking of depth perception, have you ever realized how difficult it would be to drive, or to do almost anything, for that matter, with only one eye?

Here's a little demonstration that will show you just how valuable your three-dimensional sight is. But I don't want you to try it while driving.

Close one eye. Then point to an object about eight to ten feet away.

You will notice that your finger

appears to be almost touching the object. Right?

Then open both eyes and look again.

Now you see both your finger and the distant object in the proper perspective. You can see that your finger really is a considerable distance from the object, not almost touching it as it first appeared.

You've heard a lot about stereophonic sound lately. Well, your two eyes, operating together, give you stereoscopic vision. These all-important eyes of yours are very sensitive organs. Better take good care of them. That means a visit to the eye doctor at least every two years whether you wear glasses or not.

Question and Answer  
J. M.: I find myself getting short of breath, and sometimes find it difficult to catch my breath.

What do you think is the matter?  
Answer: Shortness of breath may be due to heart or lung disease and asthma is a frequent cause. Why not check with your doctor?

Radio Sweden has a daily English-language program to give news of the world, weather forecasts and other information to the vast number of American and English tourists who are sight-seeing in Sweden.

## The World Today

By James Marlow

WASHINGTON (AP)—Gov. Orval E. Faubus of Arkansas still has trouble getting some people in high places to believe him. What he says one time isn't necessarily what he says the next.

In the past year he has, in effect been called a liar by FBI Director J. Edgar Hoover and James C. Hagerty, President Eisenhower's press secretary.

And the U.S. Court of Appeals in St. Louis has derided his reasons for calling out the National Guard last year in the integration controversy at Little Rock Central High School.

Latest example of Faubus' troubles in the credibility department came Sunday when he said the White House had pressured him into saying the Supreme Court's order banning segregation in the public schools was the law of the land.

Last year—after he had called out guardsmen to keep Negroes out of Central High School—Faubus flew to Newport, R.I., to confer with Eisenhower, who was vacationing there. They issued separate statements.

Part of Faubus' statement said: "I have never expressed any personal opinion regarding the Supreme Court decision of 1954 which voted integration. That is not relevant. That decision is the law of the land."

Since then Faubus has made statements saying the Supreme Court's decision is not the law of the land and that the Supreme Court has no authority to make a law.

Sunday he appeared on the CBS TV Show Face the Nation.

Reminded of the statement he issued in Rhode Island, he was asked why he has changed his mind about the high court's decision being the law of the land. Faubus said he hadn't changed his mind; that his saying so didn't make the decision law. Then he added this:

He said he had been required by the White House to make that statement as the price of negotiating with the White House. He admitted it was unusual for a governor to let himself be pressured into something like this.

Monday Hagerty was asked about this Faubus statement. Hagerty said: "I think the only thing I can have is no comment. You wouldn't print my comment that I feel like giving."

But Faubus even seems to have trouble making up his mind on whether a law passed by Congress ordering integration would be a law that had to be obeyed.

He was asked on TV: "Would you accept a declaration or a law by Congress on this (integration of public schools)?"

Faubus replied: "Well, I think if Congress passed a law, then it would be the law of the land, and there would be no means of questioning its legality."

Just a few days ago he appeared

to take an exactly opposite position. On Aug. 26, appearing before the Arkansas Legislature to ask authority to prevent public school integration, he said: "There is no clear-cut federal statute regarding the integration of schools. If there were it would be unconstitutional, for the authority to control public education has never been delegated by the states to the federal government."

Last year Faubus charged that FBI agents were tapping his telephone (he offered no proof) and that they were holding teen-agers incommunicado for hours in Little Rock. Hoover said both statements were false.

Also last year—after Eisenhower sent federal troops into Little Rock to make sure Negroes got into Central High—Faubus said the soldiers had invaded the privacy of girls' dressing rooms.

Hagerty answered for the White House: "Completely untrue and also completely vulgar."

Faubus has always argued that when he called out guardsmen to keep Negro children out of Central High—which a federal judge had ordered integrated—that he was not defying the court, but only trying to prevent mob violence.

The U.S. 8th Circuit Court of Appeals at St. Louis lashed out at this by saying that if Negro children were kept out of school to prevent mob violence, then by the same kind of reasoning: "The banks could be closed and emptied of their cash to prevent robberies, the post office locked to prevent the mails from being robbed, and the citizens kept off the streets to prevent holdups."

# 180 Monitors Over World Could Detect Atomic Tests

WASHINGTON (AP)—East-West experts have said officially that sneak atomic weapons tests could be detected by 180 monitoring stations around the world. About 10 would be in the United States, 14 in Russia and 8 in Red China.

The report was the result of seven weeks of secret talks among scientists from the United States, Russia, Britain, France, Canada, Poland, Czechoslovakia and Romania.

President Eisenhower called a week ago for diplomatic talks starting Oct. 31 and looking toward an international agreement to halt nuclear weapons tests.

Russia accepted the date Friday night. A Moscow Radio broadcast said the date was agreeable with Premier Khrushchev and that he favored Geneva as a conference site.

Eisenhower had offered to suspend nuclear tests unilaterally, as Russia did five months ago, as soon as the talks got underway. The scientists' 25-page report was made public by the State Department.

The report called for:  
1. A network of control posts around the globe. About 170 would be land-based and 10 aboard ships. They would be manned by 30 detection experts each and a total staff of 9,000.

2. Creation of an "international control organ." It would run the global system, pick the staff, select the detection devices, study reports and generally see to it that no nation cheated on any international ban on nuclear tests.

3. Use of weather-reconnaissance aircraft to sample the air for radioactivity. They would rush to a suspicious area to see if a

bomb had been set off or whether it was only an earthquake.

The report did not go into the question of whether there should be an international ban on test explosions.

As to whether cheating could be detected, it said:

"It is technically feasible to establish, with the capabilities and limitations indicated below, a workable and effective control system to detect violations of an agreement on the worldwide suspension of nuclear weapons tests."

"The conference considers that whatever the precautionary measures adopted by a violator he could not be guaranteed against exposure, particularly if account is taken of the carrying out of the inspection at the site of the suspected explosion."

The report said the 170 land-based posts would include 110 on continents, 20 on large oceanic islands and 40 on small oceanic islands. The 10 ships would drift about 1,200 to 2,000 miles apart—perhaps 6 or 7 in the Pacific and the others in the South Atlantic and Indian oceans.

The recommended pattern was described as a "5-kilometer system." That meant the system could nab with "good probability" any kind of nuclear explosion—underground, underwater, ground, high altitude—down to those with the power of 5,000 tons of TNT.

The report said the recommended network could spot a nuclear blast down to 1 kiloton on the ground or as high as 60 miles. Above that altitude, it said it would be difficult to say for sure it was a nuclear explosion and not simply lightning.

Explosions down to 1 kiloton in the ocean or underground would be detected, it said. But they might be confused with earthquakes since 1-kiloton earthquakes occur about 10,000 times a year.

## 47 Marginal Congress Tests Under Study by Party Chiefs

WASHINGTON (AP)—Forty-seven marginal congressional districts in 15 Midwest and Western states are beginning to look like the promised land to major party strategists battling for control of the House.

In the 15 states, stretching from Ohio to the Pacific Coast, there are 26 House seats Republicans won by a whisker in 1956 and 21 in which Democrats nosed out their opponents by less than 5 per cent of the votes.

While neither party is going to ignore similar situations in Eastern states like Pennsylvania and New Jersey, the suspicion is mounting in both camps that the people who live west of the Ohio

River are going to have a major voice in saying who runs the House for the next two years.

When Congress went home to campaign, Democrats held a comfortable House margin of 35 seats. The lineup was 232 Democrats, 197 Republicans and 6 vacancies.

Rep. Michael J. Kirwan of Ohio, chairman of the Democratic Congressional Campaign Committee, has predicted his party's edge will be increased by 30 in the November elections.

Rep. Richard M. Simpson of Pennsylvania, head of the GOP Congressional Campaign Committee, has not been as optimistic. But he has joined Republican National Chairman Meade Alcorn in contending there has been a recent upturn in their party's prospects.

The Midwestern states of Illinois, Missouri and Kansas seem likely to furnish the hottest battleground in the marginal districts.

In 1956, Illinois and Missouri each had six areas where the margin between opposing candidates was less than 5 per cent.

Democrats are taking aim at Kansas too, where they regard four of the five GOP-held seats as marginal. They plan strenuous efforts to capture these four GOP seats as well as to save the one marginal seat they hold in Kansas.

In other Midwestern areas, there are four marginal seats each in Iowa and Indiana, three in Michigan, two in Nebraska, and one each in Ohio, Wisconsin and South Dakota.

Farther west, Colorado has two and Arizona one in the doubtful class.

On the Pacific Coast, California offers the big prize with five doubtful seats. Off their showing in the June primaries, Democrats are hopeful of making some inroads into three marginal Republican areas and holding on to two they narrowly won in 1956.

In the Pacific Northwest, Oregon and Washington each have three marginal districts in an area where the Democrats have shown more confidence of victory than in almost any other section of the country.

again. An estimated 8,000 persons were watching the show.

All but two of those injured were given first aid and released. Hospitalized with burns and lacerations of the face, arms and legs were Mrs. Lillian Keith, 33, and Dorothy Beckner, 19, both of suburban Lincoln Park.

Officials of the 10th annual Rouge Days held at the Great Lakes Athletic Field were unable to explain what caused the bomb to malfunction. One witness said it went off with "a sound like a big stick of dynamite."

## Pickaway Feed Wheat Date Is Shifted

An important change has been made in the 30-acre farm-use wheat program for 1959, Marvin Steeley of the Pickaway County Agricultural Stabilization and Conservation Office said today.

The program provides that farmers whose wheat allotment is less than 30 acres may grow up to 30 acres of wheat for use exclusively on the farm where produced and still not be liable for marketing quota penalties.

The change in the 1959 program provides that such a wheat grower next year may file an application to take part in the feed-wheat program until 15 days after he has been notified by the County ASC office that he is in excess of his wheat allotment. Producers will be informed in the notification that they may sign an application under the feed-wheat program.

Steeley says that no single date can be named to cover all 1959 deadlines for applications. This is because notices to farmers of any excess wheat they may have will not be mailed on the same date, and each farmer has 15 days after that time to file his application.

Other parts of the feed-wheat program remain the same for 1959. If a wheat producer signs up for the feed-wheat exemption, he must certify that the entire production of the acreage in the program will be used on the farm where it is produced.

The wheat may be used for seed, human food, or livestock or poultry feed. However, the livestock and poultry feed must be owned by the producer or later owners of the farm. The wheat may not be removed to another farm for any purpose. None of the wheat may be sold, bartered, or exchanged, and it will not be eligible for price support.

**LONELY HEARTS SWINDLER HELD**—Arrested with his mother, Mrs. Anna E. Smith, 55, lonely hearts swindler Thomas H. Smith (left), 54, of Danbury, Conn., is questioned in Bad Axe, Mich., by Sheriff Merritt R. McBride. Police are seeking to unravel a complicated web of crime woven across at least eight states by Smith and his mother. McBride said Smith admitted spending 20 years in prison, and probably is guilty of bigamy, besides an untold number of larcenies by conversion. Smith admitted marrying at least five times.

## It Cost \$14,667 a Minute To Run State in August

COLUMBUS, Ohio (AP)—Every minute of every August work day, Ohio spent \$14,667 to keep its government in operation.

State Treasurer Roger W. Tracy gave that figure Saturday. It was among final tabulations showing that Ohio hit a record high in expenditures during the month's operations.

In August disbursements totaled \$154,894,276. Based upon a five-day week and an eight-hour day, this would mean that all functions of government cost \$880,081 an hour, or \$14,667 each minute.

The previous high mark, Tracy said, came last November when disbursements totaled \$140,177,755. He pointed out that there are outstanding warrants totaling more than 64 million dollars.

Largest single item of disbursement in the month was the \$40-

605,762 paid out under provisions of the school foundation program.

That expenditure was followed closely with \$25,453,988, in benefit payments to the unemployed, representing an increase of almost two million dollars over July payments, and the distribution of \$25,958,642 in intangible taxes to local governments.

Tracy said other major items paid in the month included: Industrial claims to injured workmen, \$3,899,408; retired teachers, \$2,114,288; retired public employees \$1,559,463; retired school employees \$425,504, and Korean bonus payments totaling another \$862,506.

The treasurer said that based upon current requirements for injured workmen and the four retirement systems, Ohio will pay out annually more than 120 million dollars to beneficiaries in those categories.

## Van Doren Raps Personality Tag

**TV Quiz Wizard Asks To Be Called 'Person'**

NEW YORK (AP)—Charles Van Doren detests being described as a "personality."

"I'm a person," says Van Doren, who received an NBC-TV contract after his intelligence, character and manner made a tremendous impression on viewers last year in the course of winning \$129,000 on Twenty One.

"I teach and I write and I appear on television in various capacities. I have a contract with NBC that will run two years more and I don't want to be a white elephant to the network. I'm from New England and I want to earn my pay."

This week Van Doren is substituting for Dave Garroway on the Today show. In a couple of weeks he'll return to Columbia University and resume teaching English literature. In November he'll publish an anthology of letters entitled "Letters to Mother."

Exactly what he'll be doing on NBC during the coming season is uncertain at the moment, but Van Doren hopes he'll be working in the area of news features.

Some time ago Van Doren decided that the television field where he could be most useful was news. Characteristically inclined to go to the heart of any matter, he went to the office of Robert Kintner, president of NBC. "I told him what I wanted to do," he said, "and Mr. Kintner said, 'Fine. We'll send you to Tokyo for some news experience.' I was rather startled. My wife

## Unified Command Setup Scheduled

WASHINGTON (AP)—The first unified command setup in the re-

organization of the armed services will become effective Sept. 15 with the establishment of the U.S. European Command.

The Defense Department, announcing this Friday, said it will be headed by Air Force Gen. Lauris Norstad at Paris.

Two other unified commands will be created Dec. 1. The complete transition to the new system will be completed Jan. 1 with the formation of five other commands.

The Defense Department said President Eisenhower approved these reorganization steps in keeping with plans to coordinate land, sea and air forces.

## Ike Books Some Work On Vacation

NEWPORT, R.I. (AP)—President Eisenhower goes back to work part time today after a relaxing Labor Day weekend of golf, fishing and relatively little official business.

A White House aide, special counsel Gerald Morgan, was flying in from Washington with a sheaf of bills passed by Congress shortly before it adjourned Aug. 24. There are 135 measures still awaiting action by Eisenhower, and he was expected to approve or reject several of them by night-fall.

Among those with a midnight deadline for decision is a measure to ease excise taxes in a limited field. Others include a bill to hike the national debt ceiling to 288 billion dollars for the time being.

The President arrived in this New England resort area last Friday for a vacation of indefinite duration. He apparently hopes to stay most of this month, but it will depend on whether any international or domestic crises develop.

## 27 Persons Injured by Aerial Bomb

DETROIT (AP)—Eleven children and 16 adults were injured Monday night when a defective aerial bomb exploded at a fireworks display in suburban River Rouge.

The bomb exploded near the top of a crowded grandstand. It was designed to explode in the air twice but instead went off only once and then plunged into the grandstand where it blew up

## Social Happenings

6 The Circleville Herald, Tuesday, Sept. 2, 1958  
Circleville, Ohio

### Lewis Smith Honored with Farewell Party

Employees on "D" Shift in the Casting and Stretching Area at DuPont held a surprise farewell dinner at Shaw's Restaurant in Lancaster recently. The affair was in honor of Lewis Smith who is moving to Marshall, Wisconsin. After dinner, during which organ music was played, a gift was presented to the honored guest.

Those enjoying the dinner and dancing that followed were Mr. and Mrs. Lewis Smith, Mr. and Mrs. Dale Fogler, Mr. and Mrs. Jim Kitchen, Mr. and Mrs. Bill Boggs, Mr. and Mrs. Wayne Brundige, Mr. and Mrs. Joe Satchell, Mr. and Mrs. Bill Shelton, Mr. and Mrs. Del Mosley, Mr. and Mrs. Stanley Weingardner, Mr. and Mrs. Dwight Shaeffer, Mr. and Mrs. Horace Luton, Mr. and Mrs. Gerry Goode and Olin McDaniels.

### Birthdays Honored Sunday

Mr. and Mrs. Russel Skaggs and Mrs. Mable Westenhaver of Dunmore Rd. were hosts to a cooperative family supper Sunday evening. A large three-tiered decorated cake graced the center of the table for the occasion and on it were the names of those who celebrate their birthdays during the months of August and September.

Those honored were: Mrs. Skaggs, Mrs. Westenhaver, Mrs. Nelson Stevens, David Skaggs, Mrs. L. R. Carothers, Mr. Merton Westenhaver, Mrs. Henry Bartholomew and Mr. Paul Turner. David Skaggs was the youngest at six years of age and Merton Westenhaver the oldest at 74.

Those present and enjoying the evening were: the Rev. and Mrs. L. R. Carothers and children, Mike and Cindy Jo of Huron; Mrs. M. E. Carothers, Mr. and Mrs. James Bartholomew, Columbus, Mr. and Mrs. Nelson Stevens, Mr. Merton Westenhaver, Mary Lou and David Skaggs of the home and the hosts.

### Nelson Reid Honored with Family Dinner

Mr. and Mrs. C. M. Reid and daughter, Margaret, entertained with a family dinner at their home near Sedalia, Thursday evening honoring the 88th birthday anniversary of Mr. Reid's father, Nelson F. Reid, Circleville.

Those present were: the Rev. & Mrs. Harry Fisher, Pittsburgh, Pa.; Mr. and Mrs. King Matthews and daughter, Beth and Mrs. Albert E. Reid, East Liverpool; Mr. and Mrs. Irvin Reid, Circleville; Mr. and Mrs. Dwight Reid and son Gerald, Mt. Sterling and the honored guest, Mr. Reid.

Mr. and Mrs. Kenneth Reid and son Kevin were guests in the evening.

### Lake White Scene for Sunday Picnic

Mr. and Mrs. Herman Francis, 479 Half Ave., were hosts to a picnic at their cabin at Lake White Sunday. A picnic dinner was served at the noon hour. The afternoon was spent boating, skiing, swimming and fishing.

Those present were Dr. and Mrs. Forrest Larrick, Cincinnati; Mr. and Mrs. Weldon Hatfield and Mr. and Mrs. Carroll Gray and son Roger, Jamestown; Douglas Lloyd, Columbus; Mr. and Mrs. Vernon Francis and children, Shirley Ann and Steven Terry and Judy Fausnaugh, all of Circleville.

Kappa Alpha Chapter of Beta Sigma Phi will hold its first meeting of the fall at 8 p. m. Thursday in the club room. All members are asked to be present.

Fish filets come two ways, with and without skin. Take your choice!

### Kappa Alpha Group To Meet Thursday

Kappa Alpha Chapter of Beta Sigma Phi will hold its first meeting of the fall at 8 p. m. Thursday in the club room. All members are asked to be present.

Fish filets come two ways, with and without skin. Take your choice!

### Friday Board of Managers, Circleville Home and Hospital, 2:30 p. m., in the home of Miss Mary Heffner, 134 E. Mound St.

For smooth mashed potatoes, try adding hot milk with the butter melted right in it.

### Club Members Enjoy Last Barn Dance

The last dance of the season in the barn was held by members of the Pickaway Country Club Saturday night. Approximately 60 couples enjoyed dancing to the music by the Dick Welsh Orchestra from 10 p. m. till 2 a. m.

Committee members in charge of the dance were: Mr. and Mrs. William Sibbick, Mr. and Mrs. Ned Harden, Mr. and Mrs. Robert Monson and Mr. and Mrs. Walter Ehmling.

Following the activities at the pool on Labor Day, Mrs. Crites served a fried chicken dinner to approximately 70 persons in the club house.

The next big event scheduled for the club will be the Pre-Teen Wiener Roast. It will be held from 6-9 p. m. Saturday in the woods for 4th to 8th grades inclusive.

An evening of food and fun is planned by the committee with George Hamrick taking care of the organized play and fun in the barn, rain or shine.

For reservations, parents or pre-teens are asked to call Mrs. Hamrick, phone 1182-X or Mrs. William Weldon, phone 436-W.

Members of the September Social committee are Mr. and Mrs. Hamrick, Mr. and Mrs. Joseph Bell, Mr. and Mrs. Lloyd Wardell and the Rev. and Mrs. Carl Zehner.

### Personals

Mr. and Mrs. Edward Strawser and Miss Joan Spice, of Circleville and Mrs. Carl Reichelderfer, Tilton, spent the weekend at the Harness Races at Northfield Park near Cleveland.

### Mrs. Patrick Host For Woman's Group

The Salem Woman's Society of Christian Service plans to meet at 8 p. m. Thursday at the home of Mrs. Gerald Patrick, Pickaway Twp. Co-hostesses will be Mrs. Vera Miller and Mrs. Charles Boldoser.

### Scioto Ladies Aid To Meet Thursday

Scioto Chapel Ladies Aid will meet at 1:30 p. m. Thursday at the home of Mrs. L. J. Welsh, Route 3, Mrs. Harold Fee, Mrs. Lawrence Ward and Mrs. I. N. McFarland will be co-hostesses.

### Group D Plans Wednesday Meeting

Group D of Presbyterian Church will meet at 8 p. m. Wednesday at the home of Mrs. Harold Whitmore, 832 Atwater Ave. Mrs. E. G. Grigg will have the program.

### Thursday Meeting Planned for Club

The "Child Cul" League will meet at 8 p. m. Thursday in the home of Mrs. Richard Davis, Atwater Ave.

### Miss Heffner Host For Thursday Meet

Miss Mary Heffner, 134 E. Mound St., will be hostess to the members of the Daughters of 1812 at 2:30 p. m. Thursday. Members are to note the time change.

### Kenneth Crawford Named Manager In Wheeling

Kenneth M. Crawford, 22, Saturday was promoted to floor manager and department head of the newly remodeled J. C. Penney Co. Store, Wheeling, W. Va., it was announced today by local Penney Store manager, George A. Fuhrman. Appointment was made by Fred Seltzer, Penney Personnel Manager.

Crawford is the son of Mr. and Mrs. John Crawford, 1210 S. Court St. He has been with the local Penney Store for the last four years, one year as part-time help and three years fulltime.

Crawford started as buyer for the shoe department and presently is buyer for the men's department. His new position puts him in charge of an entire floor in the Wheeling four floor store.

Crawford will head the cotton shop, work clothing and boys departments. He reports for work Thursday. He is a 1954 graduate of Circleville High School.

He is a member of the Circleville Booster Club and secretary of the Junior Chamber of Commerce.

### Elks Meet Tomorrow

The Circleville BPO Elks will hold a meeting tomorrow at 8:30 p. m. in the lodge home.

Exalted Ruler Gunner Musselman today urged all members to attend this important meeting concerning lodge policy. A lunch will follow the meeting.

### Daly's Words To Be Added To New TV Program's Music

NEW YORK (AP) — "There's a dimension to music that needs to be explained with words," says John Daly.

This, basically, is why he has agreed to add another dimension to his busy television career by serving as the narrator of the new "Voice of Firestone" program which makes its debut on ABC-TV next Monday (Sept. 8, 9 p. m., EDT).

Persuasive in argument, Daly would have you believe he is not the busiest man in television and radio. But he probably is, as administrator, newsman and performer (a description he disdains). He is vice president in charge of news and special events for BAC. He delivers five evening news telecasts and five radio news broadcasts a week. He is the host of "What's My Line?" and narrator of numerous ABC special programs.

The 39-week series will be devoted exclusively to one field of music each week: classical, semi-classical or popular. Outstanding artists in each field have been selected to carry the theme of each show. Among those who will appear on various programs are Jo

Stafford, Patrice Munsel, Fred Waring, Rise Stevens, Kathryn Grayson, Alfred Drake. One program will feature the Philadelphia Symphony orchestra.

"Each show is designed to have a comprehensive character," says Daly. Fond of music, though disclaiming any musical abilities personally, he believes that "music in this complex world is more than pleasure. It's one of our significant cultural weapons in the cold war."

In traveling about the world Daly has been impressed by the fact that the peoples of new nations "respect us for our cultural level as much as for economic aid."

"The fine point of dignity that people everywhere seek is attained by the appreciation of culture. Too often we are drawn before the world as a rude frontier people. We are not. When a Van Cliburn makes such a great impression on the Russian people, as he did in his Moscow concert, he has accomplished much more than can any form of skillful propaganda."

# Ohio Emergency Road Program Progress Told

Two-Thirds of Total To Be Under Contract By Mid-September

COLUMBUS, Ohio (AP)—Nearly two-thirds of Ohio's 26 million dollar emergency road building program, including work on county highways, will be under contract by mid-September.

Charles M. Noble, state highway director, made that announcement Saturday, presumably in answer to recent criticism voiced by Michael V. DiSalle, Democratic gubernatorial candidate.

DiSalle, on a recent campaign tour, said the Highway Department did not take quick advantage of the money made available to Ohio by the federal government's emergency road program. He said the state should have planned ahead to take a more immediate advantage of the money.

Noble's statement said contracts for 12 million dollars have already been let, and that the figure will reach 18 millions, or more than two-thirds of the total, by mid-September. Remaining projects will be started a week after that, he said.

"It is extremely gratifying that this program has moved so quickly," Noble said. "It was a masterful job of coordination, and officials at all levels of government in Ohio should be proud."

He said that in April, after Congress authorized the emergency program as an anti-recession measure, Ohio moved from a standing start. Engineers had to draw plans, get federal approval and let contracts in a hurry.

The federal act, he said, stipulated that no projects could be included that had received federal approval prior to the inauguration of this program. It further stipulated, he added, that all projects have to be started by December this year and finished by December, 1959. Federal funds not earmarked by December, 1958, will be lost.

"We are assured of using every penny of this federal allocation," Noble explained.

The federal government is contributing about two-thirds of the 26 millions. The rest is made up of state and local funds. The big program consists of 230 separate projects, involving improvements to more than 700 miles of highways. About one-third of the total money was allocated for improvements to county and township roads. The rest went to work on state roads in both rural and urban areas.

Noble said he had heard that very few states used its emergency money for county roads. The great bulk of it, and in some cases virtually all of it, went for state roads, he said.

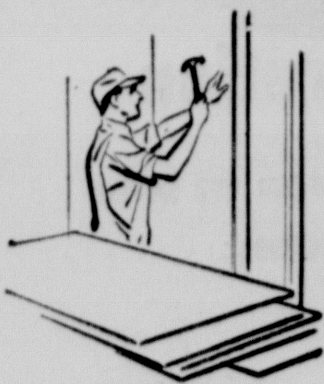

## Warren Planning New Sewer Plant

WARREN, Ohio (AP)—The city of Warren, pressed by state and federal authorities to end stream pollution here, is getting an 8½ million dollar sewer system project underway with a second advertisement for bids on Thursday. The bids are to be opened Sept. 25.

Money collected in sewer rental fees, plus a quarter of a million dollars grant recently approved by the U.S. Public Health Service, will give the city more than \$800,000 as a down payment for the project. An issue of revenue bonds would finance the balance. The city has purchased a 111-acre site for the sewage treatment plant which it is estimated will cost \$3,875,000.

### A Fine Point

ALBUQUERQUE, N. M. (AP)—Indian users of the narcotic drug, peyote, which grows from a species of cactus, have filed suit in federal court here against a Navajo Tribal Council ban on the drug. The plaintiffs contend they use peyote in religious rites, and the tribe is trying to interfere with their constitutional rights.

## Atlanta News

The Atlanta WSCS members will be serving the sale dinners for September (on Wednesday) at Washington C. H. The regular September meeting will be held on Friday, 19th, at the home of Mrs. Bruce Head at 2 p. m. with her assistants, Mrs. George Donohoe, Mrs. George Neal and Mrs. Glenn A. Robinson. Program will be by Mrs. Ray Welsh and Mrs. Tom Oyer.

Miss Effie Rose Hobbie of Phenonon arrived home on Tuesday, 26th, to spend the week with her parents, Mr. and Mrs. Warren Hobbie and Ernest Stevens.

Mr. and Mrs. Richard Belknap entertained at their farm home recently, on Sunday evening with a hamburger fry. The guests included Mrs. Mamie Farmer, Mr. and Mrs. Glenn Farmer, Mr. and Mrs. Virgil Farmer and daughter Carol Jean, Mr. and Mrs. Tom Farmer and daughter Shirley and Mr. and Mrs. Charles Lanman.

Friday supper guests of Mr. and Mrs. Earl Armentrout were Mr. and Mrs. Joe Kelly and son Tommy and Mrs. Glenn Zimmerman and son Dale of New Holland.

Mr. and Mrs. Jack Armentrout and daughter Peggy Sue of Clyde spent the Labor Day weekend as guests of Mr. and Mrs. Charles Higman and family of Williamsport and Mr. and Mrs. Earl Armentrout.

Mrs. Don Adams and daughter Karen and son Donnie, of Circleville, visited recently Friday over Sunday with Mr. and Mrs. Homer Long and sons. Additional Sunday dinner guests were Mr. and Mrs. David Long and daughters and Mr. and Mrs. Carl Long and children, and Mr. Adams of Circleville.

Mr. and Mrs. Everett Hoskins had as their guests over Labor Day: Mr. and Mrs. Everett Hoskins Jr., Mr. and Mrs. Willard Lendon and Mr. and Mrs. Orville McCabe of Columbus, and Mrs. Blanch Hoskins. The occasion was Mr. Everett Hoskins Sr.'s birthday.

Monday afternoon guests of Mr. and Mrs. Earl Armentrout were Mr. and Mrs. Marvin Orihood and son Eddie and Mr. and Mrs. Glenn Zimmerman and son Dale.

Recent dinner guests of Mr. and Mrs. Tom Oyer and family were Mr. and Mrs. Ardell Skaggs of North Carolina, and Frances Oyer of Waverly.

Mrs. George Neal was a recent Tuesday guest of Mr. and Mrs. Chester Beverly and sons Joe and Art of Sabina.

Recent Sunday afternoon guests of Mrs. James Willis were Mr. and

Mrs. John Ihrig and daughter Susie of Cincinnati, and Mr. and Mrs. Harry Armstrong.

Homer Long, Cecil Elliott and Ed Sauers of this community and several of a group of Williamsport men, recently returned from a fishing trip at Carabill, Fla.

Mr. and Mrs. William Long and Mrs. Carl Long, attended the State Fair last week in Columbus, on Tuesday.

Recent Monday shoppers in Columbus, were Mrs. Harry Morris and daughter Debbie, Mrs. Tom Farmer and daughter Shirley, Lynn Wallace and Karen Gerhardt.

Miss Margaret Oyer of Columbus, was a Labor Day weekend guest of Mr. and Mrs. Tom Oyer and son Tommy and daughter Rita.

Mr. and Mrs. Tom Oyer were recent Sunday guests of Mr. and Mrs. August Oyer and children, Mike, Johnny and Susie of Waverly.

Mr. and Mrs. George Neal spent Sunday in Waverly visiting with friends.

Mr. and Mrs. Norman Mills and sons Mike and Pat and daughter Kathy of Amanda, were recent Sunday supper guests of Mr. and Mrs. Charles W. Mills.

Recent callers on Mrs. James Willis were Mr. and Mrs. Ed McCoy and Norman Willis of Dayton. Mr. and Mrs. Pearl Willis, Mr. and Mrs. Harold Willis and Miss Marjorie Riffin of Columbus, and Mr. and Mrs. Homer Willis of Chillicothe.

Mr. and Mrs. Charles Hostler of Five Points were recent Sunday evening guests of Mr. and Mrs. Bruce Head.

## Jerry Lewis' First Coach 'Loses \$700,000' in Year

HOLLYWOOD (AP) — Irving Kaye read the other day that Jerry Lewis grossed seven million dollars in one year from television, movies, night clubs and records.

"Well," said Kaye, "that's \$700,000 I lost this year." And he's right.

Irving has been with Jerry all the comic's show-business life—18 years. In fact, Irving was entertainment director at a borscht belt resort when a gangling busboy pleaded for a chance to entertain the guests. The busboy was Jerry.

From the Catskills, Irving took Jerry on the road with him.

"I remember one night in Buffalo," recalls Irving. "We were sitting in a \$2.50 a night hotel room. Jerry was making funny faces and mouthing words to phonograph records in the show. I think he earned \$80 a week at best."

"He was just a kid but he was grateful for the chance I gave him. He said then: 'Irving, someday I'm going to be a big star in the big money.'"

"I told him he'd have to change his act, forget about mouthing phonograph records. He agreed and said he wanted to show his gratitude. He wrote on a piece of paper and handed it to me."

The paper read: "I promise to pay Irving Kaye 10 per cent of

my income when I become a big star. (signed) Jerry Lewis."

Kaye kept the paper a little while and then tore it up."

But Irving doesn't have to worry. Jerry has taken care of him for life with a job and an annuity. He's one of the comedian's television assistants.

It's a hilarious relationship. Once in New York, the two took a taxi for a short trip. Irving paid the fare and asked Jerry how much he should tip.

Jerry kiddingly said \$30 and walked away. A few weeks later, Irving put in an expense account: cab fare 75 cents, tip \$30. Kaye had given the big tip.

"How did I know you were only kidding?" he argued. "I just thought you were a big tipper."

Once the two were traveling by train through Pennsylvania en route to Montreal. Irving was sound asleep, Jerry awake. The train stopped in Altoona. Jerry walked by Irving's berth and yelled: "Montreal, Montreal."

Irving dressed in a matter of seconds and got off the train. He stood there forlornly watching as the train pulled away from the station. Later he wired Jerry in Montreal: "So, where's the humor?"

### Infant Assignment

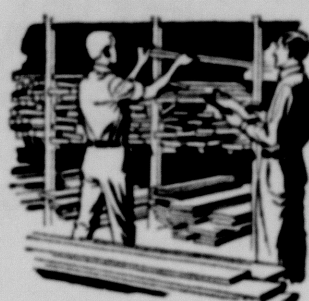

RICHMOND, Ky. (AP) — Eastern State cage coach Paul McBrayer mailed a scholarship contract to a 3-week-old boy recently.

His name is Gregory Ad ms. His father, Jack, rewrote virtually every Eastern basketball record before graduation in 1956.

In his congratulatory note to the proud father, McBrayer wrote: "Have him (Gregory) sign this (the contract) and at his convenience and return it to me."

The Debtors' Prison was built in 1750 as part of the county jail in Accomac, Va. It is still preserved, now used as a library.

# For Industry And Trade, Fall Season Is Here

Final Quarter Seen  
Making or Breaking  
Many U.S. Merchants

By SAM DAWSON  
AP Business News Analyst  
NEW YORK (AP) — Today starts a new year for many businesses—this time in a much more than usual sense.

Summer may linger officially for awhile, but for industry and trade it's fall. The time is at hand to learn whether recovery is for sure and whether it's to be a lousy one or a milquetoast.

Confidence has been running high. Recovery signs are plentiful. But the wary cite a long list of "ifs" that could hold recovery back.

As the economy turns into the home stretch — the final months that could make or break the year for many merchants, that could bring release for many manufacturers after a year of doldrums—here's how its various segments stand:

Industrial production has had a summer lull as usual — but things weren't quite as dull as usual. The actual output of factories and mines fell from their levels in late spring. But the drop was milder than in most years.

In measuring this the Federal Reserve Board takes account of these seasonal ups and downs. So it adjusts its industrial index for expected changes. Therefore the milder than usual drop this summer is translated on the adjusted index as a rise for statistical purposes, even though the actual tonnage was less than in May and June.

Industrial output should go up in the fall and the index is adjusted to that expectation. If it rises as it should from now on the recovery trend will be confirmed. If it doesn't go up as much as usual, business uncertainty could return.

Unemployment remains high and troublesome. But the work week in many factories has been lengthening.

This together with higher wage scales for many and the increased amounts this year of government and corporate unemployment benefit payments has helped keep consumer incomes high. The consumer has spent fairly freely — but for different things than a year or two back. Many businessmen believe the consumer is now ready to go back to buying hard goods with big instalment payments.

Farm incomes are higher. Even if prices weaken a bit, crops are large and the farmer's dollar take will be high. Large sections of the nation are benefitting.

Home building has come to life again, helped earlier in the year by easier money and changes in federal mortgage regulations. Chief cloud on that horizon is doubt as to the possible effect later of the official switch to tighter credit and dearer money.

Government spending has been rising at all levels. The construction industry in particular is a benefactor.

## New House in a Hurry

SAN DIEGO, Calif. (AP) — When Mr. and Mrs. Antonio Pomponio, each 75, were on a trip to Italy their home burned.

Relatives and neighbors got busy and built a new house at the same site, without notifying the Pomponios of the fire. They had a home when they returned.

Mrs. Lola Grounds, mother of three children, was recently elected mayor of Sutton Coldfield, an industrial town near Birmingham, England. Mrs. Grounds is one of Europe's top ranking racing drivers.

**QUINTUPLETS EXPECTING**—Quintuplets Cecile and Annette are expecting babies, Cecile in September, Annette in October. Cecile's husband is assistant manager of a finance company. Annette's is a TV technician. All live in Montreal, Que.

## Akron Policemen Kills Youth, 16

AKRON, Ohio (AP)—A policeman shot and killed 16-year-old Richard Lee Martin Monday when the youth tried to escape after arrest.

Patrolman Earl Elliott said he surprised the boy and a 15-year-old companion trying to break into the rear of an auto store. They ran, Elliott said, but he caught them and lined them up against a store wall and started

for a police phone on the corner to call a cruiser. They again tried to run away, Elliott said, and he fired one shot at Martin, hitting him in the neck.

Petrified trees (where geologic action changes the wood to agate) are still found in northeast Arizona. Indians once used the unusually hard rock to make arrowheads.

*"Mary Haworth's Mail"*

I do to fall in love with my husband? He has never been aware of my problem, so far as I know.  
R. K.

DEAR MARY HAWORTH: More than 20 years ago I married a fine man who has since risen to the top in his profession. I was never aggressive in trying to date many men, and when John proposed, he seemed ideal, except that I was afraid I wasn't "in love."

But after some reading and consultation, I was persuaded that a marriage for us should work out well, as I was deeply fond of him and we had so much in common. Also, I had read that being "in love" is an untrustworthy basis for marriage, as the feeling often wears off or is greatly diminished later.

Temperamentally, John and I are different. He is more extrovert, and I am more introvert, inclined to be secretive.

Less than a year ago a number of events precipitated my falling in love with a man I have known for more than 10 years — socially and professionally, as an associate of my husband's. I have good reason to believe that Mr. X (I'll call him) feels similarly and might like to discuss it frankly, but this I've sidestepped.

Should I talk over this matter frankly with Mr. X if he opens the subject? Or pretend that all is well, hoping the tension will fade eventually. Meantime, what can

DEAR R. K.: It seems you are being absurdly coy. In your introvert way, about the feeling of intense mutuality that has developed between you and Mr. X.

Marriage is one thing; it is a way of life, also a central commitment of the soul; the primary relationship between man and wife, to be honored as such, "for better, for worse." Friendships are something else — even the greatest and finest. But they aren't to be shunned by married persons. They should be valued and enjoyed, as part of the worth and variety that each partner may bring to marriage.

Both as a wife, and a person in the social arena, you are blocked by immaturity attitudes, I gather. You need education in coming of age, emotionally, and breaking out of your shy child role. If you could act your age and be yourself, you'd be in love with your husband, no doubt — and unfraid of friendship with Mr. X.

You would profit by first-hand psychological steering. Meanwhile, no confessional dramatics with Mr. X.

M. H.

Mary Haworth counsels through her column, not by mail or personal interview. Write her in care of this newspaper.

## 19 Feared Dead as Mats Plane Falls

GUAM (AP) — A Military Air Transport Service plane with 19 aboard crashed in the Pacific early today and an air-sea search team could find no survivor.

Debris and three bodies were picked up 30 miles west of Guam. The C124 from Travis Air Force Base, Calif., was on a flight to Clark AFB in the Philippines. It had a crew of seven and carried cargo and 12 passengers.

Air Force officers estimated the plane crashed five minutes after leaving Guam on the last leg of its trip.

The search was continued after a Navy ship picked up two bodies and an Air Force helicopter found one.

Maj. John Walker, Air Force information officer, said the plane left the naval air station flight line here at 5:55 a.m. and crashed without radioing any intimation of trouble.

A Travis spokesman said the plane left there four or five days ago.

### Burn and Save

VERGINIA BEACH, Va. (AP)—The state of Virginia feels it is saving from \$2,000 to \$3,000 per building in burning 63 structures here.

It would cost that much more to demolish them by conventional methods. The buildings are on the 11th Air Force reservation and beyond economical repair. The 459th Engineer Detachment (Recovery) is handling the burning job.

## Hamilton's Wildcat Strike by UAW Ends

HAMILTON, Ohio (AP)—A six-day wildcat strike ended Monday night when United Auto Workers employees reported for the 10 p.m. shift at General Motors' Fisher Body plant here.

The union said the walkout last Wednesday was mainly over unauthorized men working certain jobs.

The men voted last week to go back to work, but stipulated that

## Telling the World

TULSA, Okla. (AP)—Willard Hudson, a Tulsa Tribune printer, ran this newspaper ad addressed to his wife:

"Attention, Nette Hudson: I know it. You know it. I want the whole world to know it. I love you. Happy Anniversary, Dear. — Willard."

the company negotiators meet tonight with union officials to iron out the grievances.

# Yours Free!

Just for watching an electric cooking demonstration

Once you see the ease and convenience of modern electric cooking you'll never go back to cooking the old-fashioned way. Electric cooking is the only method of preparing food that's truly modern! It's clean, cool, completely flameless. And it's 100% efficient besides. Seeing it once will convince you that an electric range is the modern way to cook. And remember, The Electric Company guarantees you'll be delighted with an electric range or you get your money back!

**An electric range keeps kitchens clean**  
When you cook electrically, there are no flames, no greasy film to gather on walls and ceilings. Electric heat is clean as light itself. Pots and pans stay bright and new looking.

**An electric range saves time**  
Electric cooking is completely automatic. And it's faster than ever, too! New high-speed units give the fastest surface cooking ever developed. You have more time to spend with your family—more time to be a better homemaker.

### An electric range is cooler

Cooking's a breeze when you cook the modern electric way. There's no wasted heat on the outside of pans to make kitchens hot and uncomfortable. Surface units keep off the heat under the pan where it belongs.

### LOOK FOR YOUR INVITATION!

Just stop in at your neighborhood electric appliance store and watch a short demonstration of modern electric cooking any time between Sept. 2 and Oct. 11. Look for your invitation in the mail or through newspaper announcements. Spice Sets will be distributed at the demonstration. Be sure to come in and get yours!

### Electric ranges are better because:

they're cooler! No open flames, just glowing spirals that keep the heat under the pan where it belongs.

they're quicker! Electric cooking is faster than ever. A flick of a switch brings instant, controlled heat.

## Just How Good Are Mighty Yankees Now?

They've Won only 14 Of 31 Games During Last Month of Play

By THE ASSOCIATED PRESS  
Just how good are these New York Yankees who lead the American League by 11½ games? A month ago today they led by 17 games. They've won 14 of 31 games since—a scrawny 452 percent that's only sixth best in the AL for that span.

With a month to go before their expected return match in the World Series with the champion Milwaukee Braves, the Yankees' great pitching has become so-so. Bob Turley is a 20-game winner, but Whitey Ford and Don Larsen are nursing sore arms. And after those three come Art Ditmar, Bobby Shantz, Johnny Kucks and Duke Maas. Hardly a fearsome foursome. Ryne Duren, the tight-pitch terror of the bullpen, hasn't been the same since he was injured.

Only two regulars — Elston Howard (.329) and Norm Siebern (.303) — are hitting over .300. Mickey Mantle is at .300. Shantz and Maas came through with complete games in the Labor Day double-header, but the Yankees came off with only a split against Boston, getting only eight hits in a pair of 4-2 decisions. Young Ted Bowsfield (3-0) won the opener with a four-hitter. Maas then matched the four-hit pitching of Ike Delock for the nightcap victory.

Still, the Yankees added a game to their lead. Chicago's second-place White Sox lost a pair to Cleveland 6-5 and 7-1. Baltimore swept Washington 2-0 and 10-1. Detroit took two at Kansas City 7-4 and 5-1.

Dick Gernert's two-run triple broke a 1-1 tie in the sixth inning of the opener for Boston and Bowsfield sailed. The Yankees scored two in the nightcap first without a hit against Delock (12-5), then put it away on a pair of RBI singles by Bill Skowron in the third and fifth innings. Gene Stephens, still subbing for ailing Ted Williams, had two of Boston's hits.

Jack Harshman (11-11) nailed his third shutout for Baltimore in a four-hit duel with loser Camilo Pascual (7-8) and Dick Hyde in the opener. Bob Nieman drove in both Bird runs, with a sacrifice fly and a single. Billy O'Dell (12-10) won the second game, giving up 11 hits but not walking a man. Gus Triandos and Dick Williams, who drove in four runs, homered for the Orioles. Jim Constable (1-2) lost it as the Nats became the first to be eliminated in the race.

Frank Bolling counted the clincher with a two-run single as the Tigers scored five in the fifth inning of the opener. Then he hit a pair of home runs that backed up the four-hit pitching of Paul Foytack (11-11) in the second game.

Bob Buhl, the missing 18-game winner who was hardly missed, is back with the Milwaukee Braves. And right in form too.

Pitching for the first time since May 13, when he dropped out with a bum shoulder, Buhl won the opener of the Braves' Labor Day double-header with Chicago, beating the Cubs 2-1 with an eight-hitter. He walked only one, struck out three and blanked the Cubs after the first inning.

The Braves lost the nightcap 9-3. Their National League lead is now 7½ games.

San Francisco broke a tie with Pittsburgh for second place by beating Los Angeles 8-6 and 6-5. The second game went 16 innings, longest in the majors this year. The Pirates, 8½ games back, lost 9-0 to Philadelphia after a 5-2 victory.

Cincinnati held fourth place, beating St. Louis 9-3 after a 1-0 defeat.

## Patterson Gets NBA Applause

MILWAUKEE (AP) — The National Boxing Assn. today chose heavyweight champion Floyd Patterson as its boxer-of-the-month for August and took notice of a newcomer among boxing's big boys.

Patterson won the nod for stopping Roy Harris of Cut And Shoot, Tex., in the 12th round of their heavyweight title bout at Los Angeles Aug. 18.

The newcomer to the heavy-weight ratings is 26-year-old Sonny Liston, a St. Louis boy now fighting out of Philadelphia.

## Finalists Match Par for 36 Holes

Rick Spires rammed a 110-yard 8-iron shot dead to the pin then holed out easily to successfully defend his Pickaway Country Club championship yesterday, defeating rugged Bob McFadden in a 37-hole sudden death contest.

The ex-pro took advantage of a "missed" second shot by McFadden on Pickaway Country Club's No. 1 to place his second shot about 10 feet from the pin. McFadden hooked his shot low and to the left and wound up 35 yards from the green.

The challenger's third shot, a low approach, skidded 20 feet away from the hole and he missed on his putt for a five. Spires rolled his putt about six inches from the hole and tapped it in for a par four and the title.

It climaxed 37 holes of tight, thrill-sprinkled golf. A gallery of more than 150 persons followed the two finalists around the rolling 6,600-yard course on the final nine.

Spires' sudden death win on No. 1 was the first time in the entire match that he moved into the lead. He trailed by as much as four holes a one point.

McFadden began his attempt to wrest the crown from Spires early. The hard-hitting DuPont employee broke on top with two straight pars and a tremendous eagle two on the third hole. Spires had troubles, bogeying both one and two and his birdie three on No. 3 was not good enough. He was three down after three holes. McFadden gave notice that he was to be tough all day with a beautiful approach on No. 3 which

## Indians Home After Chalking 4 Victories

CLEVELAND (AP) — The Cleveland Indians were back today for their last long home stand of the season, sporting a four-game winning string and only a game and a half away from the lower rung of the American League's first division.

Wednesday night they open with the Kansas City Athletics. Next weekend three games are scheduled with the second-place Chicago White Sox whom the Indians humbled 6-5 and 7-1 before 17,326 fans in Comiskey Park Monday.

Herb Score made his first appearance since July 15 by pitching 2-3 of an inning in relief in the opener. Sideline by a sore arm, he rejoined the club only three days ago.

The Indians had a 6-2 lead when Score relieved Don Ferrarese with one out and bases loaded in the ninth. He got the first batter on a pop. Then covering first base on a grounder, Score muffed a throw from Vic Power and threw wild to the plate to let three runs across. But he fanned the next batter, Jim Landis, to save Ferrarese's second victory against four losses.

Minnie Minoso's 21st home run after a single by Bob Avila and a double by Vic Power got Cleveland off to a first-inning 3-0 lead in the opener against Billy Pierce, who took his ninth loss against 15 won. In the third inning the Tribe added three unearned runs — two when Al Smith dropped a fly and another when Billy Goodman booted a grounder.

Gary Bell rationed eight Chicago hits in the nightcap, with Goodman getting a double and two singles and Don Mueller three singles. A sacrifice fly by Jim Rivera after singles by Earl Torgeson and Mueller in the fourth ruined Bell's shutout, but he evened his pitching record at 8-8.

Vic Power's 12th home run followed a walk and Mickey Vernon's single in the third inning of the nightcap and sent starter Bob Shaw to defeat.

## Florida Speedster Wins Southern 500

DARLINGTON, S. C. (AP) — Glen (Fireball) Roberts breathed a \$13,430 sigh of relief today over the traps he escaped by winning the ninth Southern 500 stock car race at a record 102.59 m.p.h.

The Daytona Beach, Fla., speedster finished five laps ahead of the field before a record crowd of more than 80,000.

"I almost bought it a couple of times," he said of narrow escapes when he slipped his Chevrolet between other cars and the rail at 130 miles an hour.

tricked in for the eagle. The two played even until the eighth hole where McFadden's par gave him a four-up lead. Spires came back with a birdie on No. 9 to cut the lead to three holes at the end of nine.

McFadden's first nine hole score was a sparkling 33, while Spires was even par 36.

Starting the second nine Spires birdied No. 2 to close the gap, then, with his most beautiful shot of the day, deftly placed his drive on No. 3 within 10 feet of the pin—a shotgun like 315-yard blow.

He two-putted for a birdie to chop McFadden's edge to one hole. The pair played even the next five holes, but McFadden's three on the par-four No. 9 gave him a two-up edge after the morning round. He came in with a two-under 70 to Spires' par 72.

Spires got even the first time after winning the first two holes of the afternoon round, scoring a bird on No. 1 and a par on No. 2. However, his squared status was short-lived as McFadden nearly duplicated his eagle on No. 3, but missed by a scant inch on a 40-yard approach to birdie the hole and go one-up again.

The finalist then saw-sawed the rest of the way, with birds and pars, until with three holes to go in the match Spires took advantage of a "scuffed" shot by McFadden on the 34th hole to gain a five on the 580-yard No. 7, while McFadden had to settle for a bogey six. That squared the match again.

Both men parred No. 8 after brilliant shots to the green. Each came through with fine shots on the 36th hole and after one putt apiece the balls were side-by-side about 10 inches from the hole. Spires looked at McFadden. McFadden looked at Spires. It seemed a shame to decide a tight 36-hole match on two pressure-packed 10-inch putts which ordinarily would be "gimme's". Both picked up with huge relieved smiles and headed for the sudden death playoff.

AFTER THE second 18 holes Spires was even par 144 while McFadden had gone slightly over in his second round for a 74 but he was an identical 144 after the 36 holes.

On the final hole, Spires "pulled" his tee shot into the rough to the left about 110 yards from the green. McFadden was on the right side of the fairway about 130 yards from the green. He pulled out a 7-iron and missed, while the champion banged his shot near the pin.

The approximately 150 spectators were thrilled by the close, evenly-played and brilliant golf. Both finalists agreed that it was a good match. Veteran PCC golfers said the 37-hole final was probably the finest championship flight title match played here in years.

## Mason, Moon Earn 1st Place

Peg Mason and Bob Moon earned first place in a Mixed Two-Ball match Sunday at the Pickaway Country Club course with a low 39.

Diane Mason and Bob Dawson captured second in the event with a 44. Third place ended in a tie, with Edna Timmons and Emmitt Barnhart and Ruth Athey and Charlie Smith posting 49s.

Low putts were registered by Dorothy Smith and Harry Montelius.

Sunday the PCC golfers will enjoy a Goofy Golf match on the Stoutsville Pike links. Participants are urged to wear their goofiest clothes for an afternoon of fun and laughs.

A prize for the goofiest costume as well as for the top golfers is included in the program.

## K of P Bowlers To Open Thursday

The local Knights of Pythias Bowling League will open its season Thursday at Circle D Recreation, E. Main St.

Competition will start at 8:30 p. m. each Thursday for the K of P Keglers. Last season the league bowled on Sunday nights.

# SPORTS

## Magazine Picks Ohio State To Finish Third in Nation

The Saturday Evening Post's annual Piggins Preview today ranked five midwestern football teams among the nation's top 20 and nominated four of the area's players for the 1958 All-American.

Veteran sports writer Fred Russell listed Notre Dame in the Number Two spot, Ohio State in Number Three, Michigan State in Number Five, Wisconsin in No. 11, and Iowa in No. 15.

The individual stars he honored are Sam Williams, Michigan State's all-round end, Al Eucyer, Notre Dame's standout guard, Dan Lanphear, Wisconsin's devastating tackle, and Bob White, Ohio State's hard-driving fullback, who is also selected as the back-of-the-year.

Published in the current issue of the Post, the Preview finds that among all the daredevils of the hazardous coaching profession, Terry Brennan, of Notre Dame, has improved his position the most, coming up with seven victories last year, including the unforgettable shattering of Oklahoma's 47-game winning streak.

OHIO STATE is picked to win the Big Ten championship, with Michigan State, Wisconsin, Iowa and Michigan as runners-up. Illinois, Purdue, Minnesota, Northwestern and Indiana are called above-average teams.

Russell says that this is the year in which college football bids boldly for something new in spectator appeal via the option on the points after touchdown, the first change in scoring since 1912. However, he is of the opinion that this exposes the coaches to intensified pressures.

## Tigers Prep For Opener

Coach Tom Bennett's Circleville High School grid crew heads into its third week of practice in preparation for the September 12 opening date here with Athens.

The Tigers have reverted to one-a-day drills at the Pickaway County Fairgrounds now that school has started.

According to Coach Bennett, the Tigers tentatively are scheduled for a practice tilt with Bexley Wednesday at the fairgrounds. To date the locals have met Chillicothe and Columbus Eastmoor in scrimmage sessions.

Coach Bennett said that so far no serious injuries have cropped up among his candidates.

# It's Work, Work, Work For College Football Boys

By THE ASSOCIATED PRESS

The theme song is the same on all college football practice fields today — work, work, work.

The tuning up began Monday as the official opening of fall practice got under way — in some places in mid-season form.

Opening day activity varied from the usual picture taking sequences and equipment and textbook disbursement to full fledged scrimmages and pre-dawn and post-sunset workouts.

In many cases coaches oriented their players on the rule changes affecting blocking and substitution and then went through a brief dummy drill and calisthenics workout.

At Ohio State, Coach Woody Hayes didn't bother to look at the calendar. He put the defending Big Ten Conference and Rose Bowl titlists through a scrimmage that saw two guards emerge with a broken nose and smashed finger, respectively, and center Dan Frong get five stitches to close a cut on his temple.

Virginia Military Institute, 1957 Southern Conference champ, had its 46 man squad out for a pre-dawn workout under Coach John McManus.

Up in Cambridge, Mass., Coach John Yovicsin had 63 Harvard candidates, including 19 lettermen, going through conditioning and dummy drills that wound up under the lights.

UCLA, whose luck turned bad before practice started with the sudden death of Henry "Red" Sanders, began its last fall practice as a member of the doomed Pacific Coast Conference without new Coach George Dickerson.

Dickerson is in UCLA Hospital with a nervous condition that will sideline him most of the week. Top aide Bill Barnes is in charge.

Elsewhere, Notre Dame began its 70th football season with 25 lettermen among 87 candidates answering Coach Terry Brennan's summons. Pitt spent two sessions on fundamentals while Rutgers Coach John Stiegman put his 50 players through a hard contact drill.

In the conferences Michigan State Coach Duffy Daugherty had 77 out for practice, including 24 lettermen on a team expected to give Ohio State a battle for the Big Ten title.

Milt Bruhn had his largest turnout of lettermen in three years at Wisconsin as 27 reported for practice. Ray Eliot began his 17th season at Illinois with a first team of lettermen and eight-non lettermen on his second team.

Southwest Conference champion Rice had 63 out for the first day while Baylor Coach Sam Boyd described his 55 candidates as "lean and hungry." Texas Christian Coach Abe Martin was displeased

with the physical shape of the top-rated team in the Southwest as was Texas Coach Darrell Royal with his 67 aspirants.

William & Mary had 70 out for the first day, largest turnout in the school's history while West Virginia began "lard trimming" sessions for most of its 57 players, picked as a likely Southern Conference champ.

Atlantic Coast Conference champion North Carolina State went through a heavy workout in 90-degree heat while Wake Forest Coach Paul Amen went to work with a full scrimmage. North Carolina did a bit of scrimmaging, as did neighbor South Carolina.

## Now Many Wear FALSE TEETH With Little Worry

Get talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. PASTERE teeth plates firmer and more comfortable. This pleasant powder has no gummy, gooey, pasty taste or feeling. Doesn't cause nausea. It's alkaline (non-acidic). Checks "white odor" (denture breath). Get PASTERE at any drug counter.

POPEYE

FROM DOWN UNDER — Miss Peggy Carroll, Sydney, Australia, visiting last week with Mr. and Mrs. Harold Hill, 127½ N. Court St., has only the highest respect for the fine hospitality received here and in the rest of the United States. Miss Carroll, on a 10-weeks vacation in the U. S. and England, stayed one week with the Hills. She became acquainted with Hill when he was with the armed forces in Australia during World War II. (Staff Photo)

## Australian 'Mom' Visits GIs Here

Mr. and Mrs. Harold Hill, 127½ N. Court St., enjoyed the company of a special visitor last week.

The visitor was Miss Peggy Carroll, Sydney, Australia, who currently is on a 10-weeks vacation and tour of the United States and England.

The middle-aged Miss Carroll became acquainted with Hill when he served with the armed forces in the South Pacific and Australia during World War II.

Miss Carroll operated several residences where U. S. servicemen stayed during furlough time in Australia. Hill was one of the many soldiers who found a second home with Miss Carroll during the hectic days of World War II.

THE pleasant Australian woman said she had looked forward to a visit to the United States since the end of the war. Her opportunity came when a drive was launched in Australia to send relatives of GI brides to this country for visits.

Although she has no war bride relatives in the U. S., Miss Carroll does have a cousin living in Chicago. She said she found a sponsor for the trip in Sydney and jumped at the chance to come here.

Miss Carroll is on her eighth week away from Australia. Two of these weeks were spent in Eng-

land visiting relatives. Miss Carroll explained that she originally was from England, moving to Australia while a young girl.

Miss Carroll landed in Los Angeles and traveled on to Denver, Colo., for a few days stay. From there she went to Chicago for a visit with her cousin.

She also spent about five days in Lucasville, O., visiting the family of another serviceman who made his home with her when in Australia.

The Australian visitor said she is enjoying every minute of her stay in this country. "I have only the highest respect for the fine hospitality I have received in the U. S.," she remarked in her distinct and charming English brogue.

SHE also was enthused with the many fine trees and beautiful green foliage which marks almost every section of the United States, especially in Ohio.

Another point which caught her eye was the American fondness for the color white. In her native Australia, Miss Carroll noted that many colors prevail, in contrast to the predominant white here. The local examples she pointed out were the many houses painted white, kitchen appliances and even automobiles.

In speaking of Australia, she referred to it as a "great country", not far behind the United States in progress and modern economy.

Miss Carroll said she enjoyed American food, but was amazed at the many varieties included on a single dinner menu. "It's no wonder Americans are famous for their ulcer trouble," she laughed.

## Disposition Made On Court Cases

The Pickaway County Common Pleas Court disposed of 20 cases during August. Of this total, which was seven less than last month, five were domestic relations cases, 14 were civil and one criminal.

Pending as of September 1 are 94 domestic relations cases, 112 civil and 90 criminal cases, for a total of 296 cases, 19 more than July. The criminal case load is up due to the fact that the grand jury hasn't met since April. It will meet September 22.

Disposition by court action was reached in three domestic relations cases, four civil and one criminal cases.

One civil case was tried by a petit jury. Six civil cases were cognovit and default cases. Two domestic relations and three civil cases were settled or dismissed. One traffic point system case was terminated.

## McDowell Answers Critics Of School Secretary Need

Recently at a meeting of the district boards of education, township trustees, county commissioners and county budget commission the question arose, "Why do school heads and superintendents need secretaries?" Today George McDowell, county superintendent of schools, answered that question.

McDowell stated that the past several decades have witnessed an increasing emphasis upon the professional training of school administrators, principals and teachers with higher certification standards. Paralleling this has been the development of another group of school employees — the secretarial and clerical personnel.

Too many times those responsible for school organization and instruction have been obliged to spend too much of their time on the more routine activities of record keeping, accounting, correspondence and similar work to the neglect of the professional aspects of their work.

Those responsible for school policies are coming to appreciate that it is poor economy to require a professionally trained person to perform those functions which call for special secretarial skills, or work of such routine nature that they can be performed by clerical help.

IT IS probably generally accepted that the school secretary of today must be possessed of much more than the mere technical stenographic and clerical skills which are usually thought of in connection with office work.

She must be graced with the social skills that will enable her to serve as an acceptable interpreter of the school administrator and of the school system to the many persons with whom she daily comes in contact.

The selection of secretarial and clerical employees, if they are to assume increasing importance in the school operation, must be done on a merit basis, likewise, promotional policies should be clearly understood, an adequate salary schedule provided and vacation and sick leave policies adopted.

McDowell said he had been asked a number of questions by board members and patrons of the schools which would indicate that a presentation in summary form of each clerical assign-

ment, knowledges and abilities needed, as well as the minimum training and experience necessary should be presented. The following outlines might well indicate what basic board policies governing secretarial and clerical personnel might be, he related.

Elementary school secretary with only one part-time person in service, acts as secretary for the principal. She keeps records for all pupil transfers and forwards reports on each transfer to county office, initiates pupil-personnel records, posts grades, attendance records, and other current information and prepares regular reports for child accounting purposes.

She prepares stencils, ditto carbons, and duplicates a wide variety of materials for teachers and the principal. The secretary issues educational supplies, may sell workbooks, keeps a cumulative inventory of the same, counts and keeps records of school money;

ASSISTS the teacher-librarian, issues pupil and school materials, sorts and distributes mail and is often custodian of lost and found articles; may care for cuts and bruises;

Answers telephone while principal is teaching, relays messages, and administers to other personal needs as they arise and acts as receptionist; may be responsible for lunch room accounting, preparing forms and for receipts and records.

The high school principal's secretary performs general office work in relieving the principal and staff members of minor executive and clerical duties; takes dictation and types correspondence, bulletins, daily announcements, types absence lists and confidential records.

She is responsible to the principal for coordinating and distributing work for student help in the high school office. As a receptionist she receives all callers, makes appointments, handles all telephone calls and keeps a schedule of all auditorium and social room reservations.

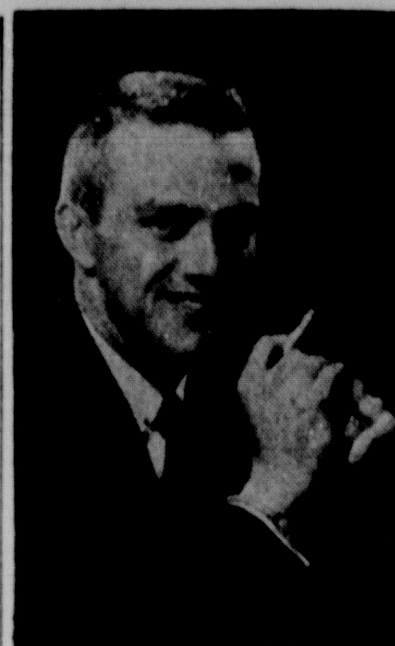

All orders clear her desk; she issues supplies to teachers, orders supplies, magazines and books; helps keep lunch room money and records and keeps account of all money handled in the high school office. May make substitute teacher assignments.

The executive head's secretary performs general office work in relieving the executive head of minor executive and clerical duties; takes dictation, types correspondence, prepares monthly reports for Board of Education meetings; types other reports and memoranda.

SHE MAY make substitute teacher assignments; prepare personnel folders for all educational employees; may prepare or type annual organization reports; makes confidential contacts and keeps various files;

Answers telephone and acts as receptionist to those calling at the executive head's office; cuts stencils and operates mimeograph machine; make lunch room reports and monthly summaries.

Probably all the duties enumerated may be performed by each type of secretary. Many minor duties may not have been listed, concluded McDowell.

GARY L. BROWN

## Gary L. Brown Transferred To Lexington

Gary L. Brown, 25, Route 1, Ashville, has recently been promoted to the executive position of program director at station WKYT-TV in Lexington, Ky.

Brown is the son of Mr. and Mrs. Virgil Brown, 568 N. Pickaway St. He is a 1951 graduate of Circleville High School and attended Ohio State University where he was a member of the Sigma Nu Fraternity. He served with the U. S. Army in the Far East during his military service.

Brown entered WTVN-TV, Columbus, in 1956, starting as floorman. He then went to floor director, production manager and director.

He wrote and appeared in Spooker Club, directed Gene's Canteen and appeared on the Canteen Show various times. Brown also emceed over 200 Sock-Hops, covering central Ohio with Gene Fullen.

BROWN will leave September 7 for Lexington, where he will be joined later by his wife, the former Charlene Jerrome, Wheeling, W. Va.

Stations WTVN-TV and WKYT-TV are both owned by the Taft organization, which has established several television stations in the United States.

## Independent Tot Drowns In Mishap

LOUDONVILLE, Ohio (AP) — Blonde, blue-eyed Brenda Leatherman was only 2½, but she was an independent tot who liked to do things for herself, relatives said. Otherwise, she might be alive today.

Alone she went to an outdoor public latrine in Mohican State Park near where her family was camping, tumbled 10 feet through a foot-wide opening and drowned.

Her body was found only about 100 feet from where she last was seen, but it took a search of more than 15 hours.

Almost 1,500 volunteers participated, including prisoners from Ashland County Jail. Bloodhounds were used, too. And early Monday morning a helicopter and two airplanes joined in the hunt. Most of the 4,500-acre park, including densely forested hills and ravines, were covered.

The child was reported missing shortly after 5 p. m. Sunday. Her body was identified by her hysterical parents, Mr. and Mrs. Howard D. Leatherman of Wadsworth, at about 8:30 a. m. Monday. She was their only child.

## Wallet Containing \$60 Said Taken

Alva Swank, Darbyville, reported to the sheriff's department that his wallet containing \$60 was taken Sunday by two men and a woman.

Swank said he accepted a ride with the trio in Grove City. He said they took the wallet and forced him from the car.

## Hub Caps Are Taken

Larry Lemley, 150 Logan St., reported to local police that four hub caps were taken from his car Friday night.
